Subject: Re: Revised CSUCI Proposal

Marti,

I agree and have always understood this project will move forward with monies raised specifically for it. The thought of CSUCI Foundation funding it has never entered my mind. I am glad that is clear.

As stated before, my understanding is that Dr. Don Rodriguez has agreed to be the CSUCI faculty PI.

Edison has expressed interest in funding this specific project, as has Citibank. The meeting with them will clear all questions. After meeting with Edison and Citibank we can decide how to finalize this proposal - and where CSUCI wants to go with this idea. I have stopped introducing the project to other funders - until the above questions are cleared.

This is my first working experience with CSUCI - as you can see - I am learning the CSUCI receiving funds process as we proceed.

Thanks!

Lupe

Subject: RE: Revised CSUCI Proposal

Hi Lupe,

I echo Amanda's statements about needing the CSUCI faculty PI and then running the entire proposal through the CSUCI grant review process before the proposal can be submitted. Even though this grant will run through the foundation, this is the process we always follow. Also, you should be aware that Edison just made the final \$25,000 payment on on multi-year pledge for \$125,000 for another program here at CSUCI, so that could come into play with this proposal.

One sentence in your email below confused me. You say that your understanding is that this project will fall within the CSUCI foundation in lieu of support from Edison and Citibank. I would interpret this to mean that you think the foundation will somehow fund this project if Edison or Citibank fail to do so. That is most certainly not the case, as the Foundation does not have the resources available to do that. Correct me if I am wrong in this interpretation.

I will be out of the office this afternoon, but will return on Monday morning. I'm happy to talk with you in person if that will help. Thanks Lupe!

Marti DeLaO, C.F.R.E.

Subject: Re: Revised CSUCI Proposal

Amanda,
Thanks for continuing to educate me on the CSUCI fund receiving process.

I have been working under the assumption that - Dr. Don Rodriguez, Chair of Environmental Science and
Recourse Management is the CSUCI Faculty PI - am I correct Don?

My understanding is that this project falls within the CSUCI Foundation - in lu of support from Edison and
Citibank. Is this correct Marti DeLaO?

Gene Rodrigues, Director of Energy Efficiency for Edison is available to meet Monday Nov. 27th between 10
AM to 1 PM or Tuesday Nov. 28th between 10 to 11 AM or 3 to 4 PM. I called Rudy Gonzales to check his
schedule.

I will be glad to complete the proposal - with Marti and you Amanda. Many of Edison's proposals are filed via e-
mail - thus they are not difficult to submit. With the involvement of Gene Rodrigues from Edison Corporate office
- they might treat this proposal differently?

We will have a better idea how to proceed with proposal submission after our meeting with Edison.

Ingrid Ward from Citibank is waiting for the meeting to be scheduled.

Finally, it is important that we get this proposal into the funding request category for Edison and Citibank - if we
want the Symposium to be realized in 2007.

Thanks!
Lupe

Subject: RE: Revised Proposal

Dear Lupe,

11/17/2006

At this point in the process the only way that Marti and I can move forward with this project is if you have a willing faculty PI. Either Don or Frank need to express interest in assuming this role or else we can not go much further. Once the faculty PI adopts this proposal and is willing to fully support it, then the PI would need to arrange a meeting with the CI Foundation and ORSP so that we could meet and comment on the proposal before submitting it through our administrative review process which will take about 2 weeks. Unfortunately, we don't have a grant writer on staff so we would not be able to greatly assist in the content of the proposal at this point. We do handle all the technicalities of cover letters, signatures, approvals, and editing. We can finalize the budget and the university always send off the proposal to the funder.

I hope this answers some of your questions.

Amanda

Subject: Revised Proposal

Don, Amanda, Marti:

Help! Help! - Attached is second draft of revised proposal. Don's work with the US Forest Service and National Hispanic Environmental Council activities need to be added to the proposal. Those activities fit well within the already program development aspects.

Amanda: I am very sorry - I was not able to print-out the budget. I am not sure why it continued to print out in 3 pieces even if I printed in landscape style. I hope you can work with the attached format or work with Don in creating the final Budget in your CSUCI format.

Questions - Who at CSUCI receives the money - to whom should the check be made out too? Address where check should be sent needs to be stated in the Cover letter of the proposal. Who develops the letter and signs it?

Who at CSUCI will be finalizing proposal and mailing out - organize the entire proposal in CSUCI format - include Logo etc.?

Shall we meet or can the three of you decide? I will be glad to help finalize the proposal - however not the budget.

In a conversation I had with Dr. Frank Barajas, seems he does not want to be directly involved with the program development aspects of the project. Is that correct Frank?

Lupe
