Dear Friend:

1971 is the year of reapportionment. The Legislature elected in 1970 will shape the political and social history of California for a decade.

Unless the Democratic Party is successful in regaining control of the State Assembly, the Republicans will have a free hand to gerrymander the state. If this takes place, there will be no Democratic programs for the next ten years. We cannot let this happen.

To forestall this, you are being invited to participate in an expression of Democratic Party unity and optimism. Senator Ed Muskie of Maine will spearhead this first effort aimed at achieving a new legislative majority in 1970. Proceeds from this dinner will be held in trust and will be expended next year so that we may elect Democratic nominees in the general election.

We are happy to personally support this united effort. We hope you will join us.

Sincerely,
