00:23:25:17 - 00:23:32:27

Speaker 2

These were other minorities giving back to their communities. They had obstacles.

00:23:32:27 - 00:23:39:12

Unknown

As well, Like too many others here, these students.

00:23:39:14 - 00:23:46:18

Speaker 2

But instead of we're these students walked.

00:23:46:20 - 00:23:52:17

00:23:52:17 - 00:23:55:23

Speaker 2

The next semester.

00:23:55:25 - 00:24:00:12

Now, in addition, 30 time who's been here for going to say, don't put this on us. Yes. You know, I mean, I don't want to have the community having some people discuss these days in the U.S., but I can not have the amount of income instead of income potential.

00:25:59:12 - 00:26:42:27

Unknown

I guess we could have also has a up consulate over many years. You're going to have to tell us know that the animals. But if we're coming back to my studies, you're saying when the younger I go.

Unknown

For us not yet yes no and a lot of animals that these Messiah they don't allow any of us the affiliates.

00:27:06:02 - 00:27:06:27

Speaker 3

00:27:06:29 - 00:27:15:23

Unknown

Enough that they get it enough that I guess I is for now you are that.

00:27:15:25 - 00:27:27:19

Speaker 3

If we're not spending enough time. That was the sequence. He says he has two students.

00:27:27:21 - 00:27:32:21

Unknown

I say I do.

00:27:32:23 - 00:27:54:03

Unknown

I want to be forgiving. He is not allow us to share. You can't even imagine it with strangers. So we have to we have to assume that makes.

00:27:54:05 - 00:27:54:13

Speaker 3

You know.

00:27:54:13 - 00:28:47:04

Unknown

For 40 years it's you that makes this university worthwhile. And I think you're going to make sure this whole thing. Alison, I want to thank you for bringing this memory to your program. I'm a fine example of the program, like I want to our keynote speaker is someone and when you're like for the next hour, before I can tell you a little bit about, first of all, no, we are not hearing so many people often ask, although it would be a fine catch.

00:28:47:06 - 00:29:30:21

Unknown

Yes. Supervisor I just represents District three who is way to the National County Board of Supervisors. In November of 1988. He was born in San Francisco, operation in Sunnyvale supervisor and also attended and made college and received his martial arts degree and urban studies from the University of California and Cruz Yeah, so when I hear the mayor's rendition program at Harvard University's Kennedy School of Government as well, school supervisors, intelligence, professional careers, and put its service to the San Diego school district and the city serve two terms as mayor.

00:29:30:24 - 00:30:05:29

Unknown

How, you know, he's been involved in numerous civic organizations, including the boards of directors for the United Way. And right now, he's one of the leading causes of trying to relocate the San Francisco Giants, as I say. So they got to be on that is married. It's one. yeah. And therefore, you know, it was I was I have to say, it's a great pleasure to introduce to you our keynote speaker, supervisor of Rise us.

00:30:06:01 - 00:30:40:17

Unknown

Thank you very much for us. And thank you all for that very nice photo. You know, when I was a young boy growing up, I used to spend a lot of time on a baseball field and I was trying to try to become a basketball player. And the problem in our family is that all the good, the most and I to my older brother and I was never taught to play basketball and I always had a vision of performing on a on a basketball or a university.

00:30:40:20 - 00:31:06:11

Unknown

Well, here is my answer. And I know that I do well, three zero. And I do want to thank you for having me as your speaker this afternoon, because this is a very special occasion. It has been a while since I've been to a commencement ceremony, and that was in 1973 when I graduated from the University of California, Santa Cruz.

00:31:06:14 - 00:31:34:16

Unknown

I remember those times, the disruptive times where college campuses were still pretty soon that very late 1960s. It made it difficult to actually go to school straight. I know that one of the reasons that I chose the University of California at Santa Cruz was because it was the only panacea for California. I was given a helicopter training at the National Guard.

00:31:34:18 - 00:32:38:07

Unknown

These fellows can play those days, but students still have always had the potential to change that. The recent threats, all of this planning approved today. We are very proud of all. All right. Now, as the graduation ceremonies graduate, scattered businesses, high speed broadband and countless hours that

all of us are in danger of Iraqis and Americans and generations of leaders and Americans and all to say these are our enemies and this is not a game of crazy world trade show for your generation is greater than all of these generations combined.

00:32:38:09 - 00:33:15:16

Unknown

And perhaps no surprise, not a single rally in this country will remember what the graduation speaker said on the week after the ceremony. I now know that all of us may know important institutions, but I know that you see stubbornness as a survivor and as a politician, quite honestly, I can never go. I speak to all survivors, he said.

00:33:15:18 - 00:33:44:29

Unknown

So there are certain areas of greatness thrust upon us and sovereignty and this graduation process. As the first time president, my family and I do together. And it was a very special time in my family and me. And you should consider today a special occasion for yourselves, for your families, and for the general community here in Kansas City graduations.

00:33:44:29 - 00:33:57:12

Unknown

Our first and foremost celebration for the academic community. It is an opportunity to gather together and to sit down with your ambassadors for you. The Graduate.

00:33:57:15 - 00:33:58:20

Speaker 2

It is an honor.

00:33:58:23 - 00:34:08:24

Unknown

To celebrate with one of life's management strategies. I don't think celebrations of our times to discuss specific and weighty.

00:34:08:27 - 00:34:09:21

Speaker 2

It is much more.

00:34:09:21 - 00:34:35:23

Unknown

Important to focus on these which we all share. The hope that you you may find something be to take with you into the future. It is a cliché to say that every generation has unique challenges. It is, however true some generations have suffered and or others marched for civil rights. I think the challenge for your generation.

00:34:35:26 - 00:34:43:09

Speaker 2

Will be considerably different. Your challenge will be to open doors for yourselves and for all.

00:34:43:12 - 00:34:48:22

Unknown

Those who have been kept out before. Your generation will have to.

00:34:48:22 - 00:34:54:21

Speaker 2

Succeed in many different professions to show that we can participate and we can contribute.

00:34:54:21 - 00:35:41:24

Unknown

To this society in a productive and meaningful way to play. This was the that is the game of your generation and the opportunity to continue to talk about this big and present in power. And now it is now to our sense of law and order and now. And like all of us, although Hispanics are beginning to be recognized and talk to us and their investments, our contributions have been considerable in the past as well.

00:35:41:26 - 00:35:46:13

Unknown

And I think it's important to understand that we are a strong force.

00:35:46:15 - 00:35:47:11

Speaker 2

In this county.

00:35:47:18 - 00:36:07:23

Unknown

Economically, culturally, socially, one sector was known as the value of our satellite, and our economy was primarily agriculture. Our people were the ones who owned the fields. When we took the crops to the fields and packaged them in the communities.

And that's one reason why your members are so proud of you and why you should be proud of yourself with your graduate. Even today, you have taken a major step towards a successful future in the world you step into will be different than the world last four years ago when you began your college career.

00:37:26:03 - 00:37:28:12

Thousand and three. Our population will be older and it will be much more diverse. In that year, we will have for the first time what is called the minority majority. The Hispanic community will be well over 30% of the Asian community, well over 12%, and the black population over 7%. The challenge for these communities will be to live and work together toward common goals.

00:38:10:28 - 00:38:47:07

Your challenge as our future leaders to be to make that happen, especially for the Hispanic and Iowa, that we have a Hispanic and best prepare for the future, not only by relying on government's generosity in the private sectors, resourcefulness, but by forming a spirit of independence. We need to work with our local and state governments from both inside and outside to make sure that the needs of our community are addressed.

But we also need to have the attitude that we are we as a community, to meet challenge successfully. We need to see the best in terms that are positive and progressive. One philosopher described it this way. He said The word independence is uniting the ideas, a beginning and of the word dependance to the ideas of inferiority and corruption.

Today is an appropriate time to reflect on what your family's future may look like. Graduations are celebrations of community and family, and more so than personality. And a few of you have come this far all on your own. But most of you are here because your family helped you get through difficult times and sacrifice themselves when you need it the most.

00:39:45:11 - 00:40:23:07

Unknown

I know that was the case with me. I was the first graduate in my family. My parents never had the educational opportunities that I have, yet they can think of no more important I than the son. Getting a college graduation to us was not a celebration. First of all, to put a man in pride in 1969, it seems so long ago, when I chose to begin my college career at the engineering college, one of the reasons that I decided to go there was that it was close to home and family.

00:40:23:09 - 00:40:23:27

Speaker 2

It is not.

00:40:23:27 - 00:40:29:10

Family concern. You may not have high priority for that opportunity. It will certainly be more difficult to balance the demands or the responsibilities of the family. I ask that you be prepared, be aware of your priorities and your career, because in the fast paced, competitive world, it is often easy to lose track of many important things. Let me conclude by saying.

00:41:00:04 - 00:41:00:20
