New York American,  
New York, N.Y.

Dear Mr. Hearst:

The marble walls, etc. for the Doges Suite is being made and will all be in place by the first of May. There remains yet to order the wash basins -- made of the darker "rosata", basins integral with the slab like in your House A rooms, they will cost \$1120.00 with legs as shown in the enclosed cut or duplicating those in House A. Do you want curtains or doors at the showers? If doors, see enclosed cuts and prices.

We could get marble slabs with porcelain bowls at a small portion of the cost of the one piece ones.

If we make new models for the standards it will considerably increase the cost.

The rooms are taking shape nicely. The only worry is as to the sitting room wall covering. The pieces sent not matching in pattern, lengths, etc., have asked French to send all they have in hopes of getting enough of one pattern. The color is fine - and it will quite break my heart if it will not do.

Yours very truly,

JM-dem
