August 3, 1965

Dear Friend:

The Democratic National Committee receives a constant flow of mail from Democrats in all parts of the country reporting on activities of the John Birch Society and others of the Radical Right and asking for our help.

So far as possible we have tried to provide this help. But to do so we have had to depend heavily on the only national research organization that has systematically kept track of the activities of the Radical Right and has readily available the information on individuals and organizations that is so essential to combatting their activities.

This organization is Group Research, Inc., which was established four years ago as a private, non-profit organization. Since then it has rendered invaluable assistance to organizations with Right Wing problems -- among them the League of Women Voters, the National Education Association, the Parent-Teachers Association of America, the National Council of Churches, and the A.F.L.-C.I.O.

Enclosed is a brochure describing this organization, and a sample copy of the newsletter that is its principle publication. If the Radical Right is active in your area you may want to give serious consideration to subscribing to the newsletter, and perhaps the other services that are available. It is our experience, and that of others, that you will find them extremely valuable in countering Right Wing activities.

Sincerely,

John M. Bailey
Chairman
