ON GOVERNMENT WASTE AND TAXES:

"...I have worked for efficiency and economy in City Government which was reflected in the recent reduction in the City Property Tax Rate without sacrificing city services."

ON PRESERVING OJAI'S NATURAL BEAUTY:

"...I have fought AGAINST freeways running through Ojai, shopping centers in outlying areas and growth inducing developments that would destroy the Ojai way of life."

ON DENSITY OF POPULATION:

"...I authored the original draft of Resolution #1950, which OPPOSES zone changes that would increase the density of population in the Valley."

ON PUBLIC TRANSPORTATION:

"...with the recent loss of our local taxi service, we must develop a Dial-A-Ride door to door bus service to serve the needs of the elderly, the handicapped, the non-drivers and mothers of young children who appreciate the door to door security this type of service offers."

ON GROWTH:

"...I have supported Open Space and Land Conservation programs and have worked for legislation that ensures the orderly and controlled growth of our community."

ON RECREATION:

"...We must expand our recreation programs to include the Senior Citizens and teenagers as well as expand our bike, hiking and horse trails. Our programs must serve all interests in the city."
