Miss Julia Morgan,
Merchants Exchange Bldg.,
San Francisco, California.

Dear Miss Morgan:

It is a good idea to use the present hill reservoir for salt water and to build a large new fresh water reservoir. We need a new fresh water reservoir in any case and it should be big enough to carry a large reserve over the dry months.

2. I have no use for the power plant and you can use all that machinery for any purpose you see fit.

Sincerely,
