- 4. Intent to raise questions**
- 5. Report from the Provost**

-Lucas reports that the WASC site visit went well and he would like to thank everyone by inviting them to attend a pizza party on Friday, 10/22, from 11:30 a.m. to 1:00 p.m. in Conference Hall 3.

-The next most important task for this university will be to convince the Chancellor's Office that we really need the enrollment targets we are requesting. At the last Executive Council meeting, it was noted that the small campuses would exempt from the enrollment caps being set on the larger campuses.

-Lucas extends profound thanks to Dean Lefevre for all the work he's done as Dean of Faculty. THANK YOU STEVE!!!

-The fourth AVP candidate will be on campus on 10/26 for interviews, please participate if you are available. The candidate's name is Margaret (Peggy) Atwell who is currently working at CSU Fullerton.

-We will be conducting a national search for a Dean as soon as we receive the recommendations from the Structure Committee. The recommendation will determine if there will be more than one Dean and what areas the Dean/Deans will be responsible for.

-An add will be published in *The Chronicle* advertising the available faculty positions at this campus. The article will advertise positions in all program areas, however the actual areas that will be hiring and the amount of positions to be filled have yet to be determined. The President would like the same interview procedure that has been used in the last couple rounds of hiring to

be used again this time. He especially wants to be sure to include the interdisciplinary group exercise that has been used in the past.

**6. Report from the Vice President for Administration and Finance**

-Reporting on behalf of the Budget committee, Joanne Coville informed everyone that we had a legislative group visit us for the first time. Coville gave us an overview of the groups' purpose and indicated that the visit went well. Coville also gave a summary of the Budget Committees task and distributed charts displaying the status of the campus budget. Based on past year amounts, we can expect to receive approximately 35 million for our working budget next year.

**7. Report from the Chair**

-Christopher reports that we have done an extraordinarily great job with shared governance on our campus, especially related to budget. In consulting with her fellow Senate Chairs, she finds that other campuses do not normally allow for much faculty participation on budget committees.

-The Senate acclaims by proclamation that Dennis Muraoka and Ted Lucas did a fabulous job of leading the campus through the WASC review. Thank you both and thank you to the entire WASC committee.

-Christopher disseminated an email regarding the voting rules, which state that the by-laws need to specifically state that absentee votes will be counted, otherwise votes will pass by a simple majority. Using these voting regulations means that *The Computer Crimes Policy* actually passed with vote results being 15 yes to 13 no.

Responses to questions raised:

-Regarding Blackboard; yes there are plans to upgrade to a newer version, possibly over the Intersession so that it will be ready for the Spring semester.

-Regarding students being taught academic integrity; Teri Goldstein indicated that she covers it in her University 100 course and Amy Wallace covers it in her University 110 course as well. Sawyer adds that a session on student rights and responsibilities including student code and conduct is included at every student orientation.

-University Hour Management; currently there is no plan in place to govern University Hour, a proposal can be made in the form of a resolution if somebody is interested in taking responsibility for it.

**8. Reports from Senate Standing & Advisory Committee**
