

*May 23rd Pancake Breakfast*  
*I have been a resident of Oxnard since 1924*  
*24*  
*71-72*  
*500,000*  
I am Jane Tolmach. My husband is Daniel Tolmach, a pediatrician here in Oxnard.

We have lived in Oxnard 22 years and have 5 children.

I have a Bachelors degree from UCLA and a Master's from Smith College in Mass.

Starting in 1957 I served 5 years on the Oxnard City Planning Commission. I *and* *two served on the Quality Water Committee in 1961 when we took in the water* have been on the governing board of the Oxnard Union High School District for 5 years. *to our community*

and served on the Board of Trustees of Camarillo State Hospital for 9 years. While

*I only own our home on the OX plain*  
I was on the ~~1958~~ 1958 Ventura County Grand Jury, I was chairman of the Tax Committee.

The major issue facing Oxnard in the coming ten years is growth -- whether it improves Oxnard or destroys it.

I want to be a member of the city council to see that the decisions are correct for making Oxnard, as the Chamber of Commerce says, a Wonderful place to live, work and play.

Planning can be used to achieve and maintain a balanced city, free of noise air and water pollution. We need to aggressively and selectively seek the best clean industries, cautiously stick with *good* planning standards relating to ideal percentages of industrial, commercial and residential zoning and in the placing of industry away from residential areas. However, this requires intelligent, informed and courageous councilmen who are willing and able to devote an endless amount of time *to gather all facts, ask fearlessly a question and pursue* to studying each issue. After full study a councilman must be able to vote independently for the people of Oxnard, ~~meaningful solutions uninfluenced by special interests.~~

I am against the expansion of the Ventura County Airport or the Oxnard Air Force Base into a jet airport. Flight patterns of ~~the~~ a jet airport should be away from population centers because of the smog and noise nuisance as well as the danger of crashes.

A growing city urgently needs to have high quality police and fire departments. We need quality water for all, updated sewer treatment and disposal and further flood control.

In addition to the official government programs against drug abuse, private

efforts, such as the successful A.A. programs, should be encouraged actively by the city in cooperation with the County.

We should keep the community recreation and parks programs up with population growth, particularly the small neighborhood parks. We need a good family picnic type park.

For 22 years I have thought about the kind of councilman I want. I want them to represent us ~~them~~ with foresight and leadership, not wait for a roomful of faces to force an issue. Some of the most important decisions are made before the public is aware of the effect those actions will have on the community. If elected, I will strive to be that kind of member of the council.
