

Dear Michele Serros,

I am writing this letter to you because I wanted to tell you how I liked your presentation. I really enjoyed your stories. Those stories really showed that they came from your heart, and how you felt what words should go in them. My parents always tell me that anything I want to be I can, as long as I put a lot of effort. The idea of being an author really came up to my mind because you showed me that you can write about what you want and not what other people tell you to write. Your book was great I hope you succeed on any other book you write. Thank you for coming

Una Mas De Tus Admiradoras,

Mayra
