Dear Betty

Sept. 12, 1942

I'm resorting to post cards again in order to catch up on my correspondence - so I hope you'll bear with me. - I'll try to get the equivalent of a letter on this P.C. - Ward Lorraine was working at an aircraft Co as a stenographer - but hadn't heard of her winning a $50 bond. - Is she at Lockheed? How are you getting along with work? - Having your fun too? - Happy to hear Della is going back to school. - And you're not? Maybe after you amass such fortune - after this war is over - you can go back to study then. - Don't you think that's an idea? - We're very busy in the Education Dept. - getting ready for the opening of school. - Grammar schools will begin this Monday, Sept. 15 - Registration on Tues & Wed. & classes will begin on Thurs. - Jr - Sr. High combined probably won't begin until beginning of October. - No beds or mattresses for teachers to sleep on - so telling them to stay home until furniture arrives. About 28 teachers have arrived already & are sleeping in the barracks - on cots & tilts. - I've met a number of them & they're sweet - there are a few - graduates of UCLA. - Have you heard of any who have come up here? - Manzanar is the same as usual - mornings & nights are much cooler now. In fact we had a dust storm - a terrific one at that - rather than a rain storm. - We thought it never rained at Manzanar - but discovered to the contrary. The mountains were covered with snow - for one day - but it has melted away - most of it. - Manzanar isn't too bad - but I dare would like to go "home" again. Until later -

So long - Love, Honey Lou
