

ADMISSION AS A FIRST-TIME FRESHMAN

Applicants who have had no college work after high school graduation will be considered for admission under the following provision. Except as noted, results of either the Scholastic Aptitude Test (SAT) or the American College Test (ACT) are required. Registration forms for either test may be obtained from high school and community college counselors, state college testing offices or directly from the testing service. (SAT: CEEB, Box 1025, Berkeley, California 94770. ACT: Registration Unit, P.O. Box 168, Iowa City, Iowa 52240.)

California High School Graduates and Legal Residents for Tuition Purposes: Applicants must have a grade-point average and total score on the SAT, or composite score on the ACT, which together provide an eligibility index placing them in the upper one-third of California high school graduates. The grade-point average is based upon all high school course work completed in the last three years of high school, excluding physical education and military science.

High School Graduates from Other States or Possessions Who Are Nonresidents for Tuition Purposes: Applicants must present an eligibility index which places them in the upper one-sixth of California high school graduates. The following table gives grade-point averages and test scores which together combine to establish eligibility.

ELIGIBILITY INDEX

The following chart is used in determining the eligibility of graduates of California high schools (or California legal residents) for freshman admission to a state college. Grade-point averages are based on work completed in the last three years of high school, exclusive of physical education and military science. Scores shown are the SAT total and the ACT composite. Students with a given GPA must present the corresponding test score. Conversely, students with a given ACT or SAT score must present the corresponding GPA in order to be eligible.

The minimum eligibility index is SAT, 3072 and ACT, 741. The index is computed either by multiplying the grade-point average by 800 and adding it to the total SAT score, or multiplying the grade-point average by 200 and adding it to 10 times the composite ACT score.
