

Dear michelle,

I just want you to know how good you made me feel. You know how your family didn't believe you would be a writer because you were a mexican. Well my family is like that too. I want to be a graphic designer and they say it's too good of a job for a mexican. Well, because of you I will not let them stop me from doing what I want to do. So thank you!

your friend,

David Garcia
