Dear Mr. Hearst:

Mr. Rossi's copy of your "sailing orders" are just received -- and I will do my best to follow them up -- all but the showers in ~~Power A~~ you had in come way indicated.

*House*  
Mr. Rossi has all the drawings, structural and otherwise, for the North Terrace, complete, - except the new stair motif ~~balcony~~ *balcony* *balancing* House B which we settled upon Sunday and for which drawings are now being developed.

As to the pool, I think the best thing will be to put in the windows and the mosaic lining of the pool without the pavement around it -- and then in the spring, paper it all over and thoroughly protect it otherwise, before the rest of the work is begun. How does this strike you? I am afraid the cementing of the pool would injure the bonding of the mosaic to the walls later on. There is only so much suction to the concrete.

Yours very truly,

JM-dEM
