DAN A. KIMBALL
PRESIDENT

April 25, 1960

Ms. Jane M. Tolmach

Oxnard, California

Dear Ms. Tolmach:

I am looking forward to working with you on the 1960 California Delegation. We're going to have a lot of fun and make an important contribution to the welfare of our country's future.

As you know, I am Chairman of the Los Angeles Citizens Committee which is responsible for raising the money to stage the Convention here in California.....about \$450,000. We are in the final stages of this drive with only about \$100,000 to go, but are naturally anxious to get this behind us.

This is a civic project. Therefore our committee is completely non-partisan with about an equal number of Democrats and Republicans serving. The money raised is used specifically for mechanical details and administration with not one cent going to further the platform, program, or candidates of any political party. Because of the nature and uses of this fund, the Internal Revenue Department has ruled contributions by both individuals and corporations tax deductible.

I would personally appreciate anything you might do with some of the businessmen in your community to help finish up this job. We are setting aside two tickets for the entire Convention plus a membership in a private clubroom at the Sports Arena for those who contribute \$1,000.

Please let me know if you can help. Checks should be made out to "Los Angeles Host Committee" and sent on to me.

Cordially,

Dan A. Kimball
