

251. Practicum in**Clinical Specialization (4)**

Prerequisites: admission to graduate program in nursing, NURS 229; NURS 250 prior to or concurrently. Analysis and implementation of all aspects of the clinical specialist role in practice settings. Family and group process theories are applied to nursing, client, and staff groups.

264. Practicum in Advanced Clinical Nursing for the Nurse Practitioner (4)

Prerequisites: California RN licensure, NURS 210, 221. Corequisite: NURS 265 concurrently. A practicum designed to prepare nurse practitioners to deliver health promotion and health maintenance services. Applications of individual, family, community, and nursing theories are addressed utilizing transcultural and intergenerational factors in interdisciplinary practice settings.

265. Nurse Practitioner**Role in Primary Prevention (2)**

Prerequisites: NURS 210, 221. Corequisite: NURS 264. Theoretical base for primary prevention: health maintenance, health promotion, health screening, health teaching, and anticipatory guidance for nurse practitioners. Case management techniques utilizing protocols/algorithms.

266. Nurse Practitioner**Role in Secondary Prevention (2)**

Prerequisites: NURS 264, 265. Theoretical base of secondary prevention in primary care settings. Assessment and management of acute self-limiting conditions. Use and development of algorithms/protocols for secondary prevention. Intensive pharmacology for nurse practitioners.

267. Practicum in Secondary Prevention, Family Nurse Practitioner (4)

Prerequisites: NURS 264, 265; NURS 266 prior to or concurrently. Supervised clinical practice in a primary care setting with emphasis on secondary prevention for clients of all ages. Students work directly with preceptor and faculty member. Complete assessment and case management. (One hour clinical conference per week.)

269. Practicum in**Secondary Prevention, Pediatric Nurse Practitioner (4)**

Prerequisites: NURS 264, 265; NURS 266 prior to or concurrently. Supervised clinical practice in a pediatric primary care setting with emphasis on secondary prevention. Students work directly with a preceptor and faculty member. Complete assessment and case management. (One hour clinical conference per week.)

271. Practicum in**Secondary Prevention,****Geriatric Nurse Practitioner (4)**

Prerequisites: NURS 264, 265; NURS 266 prior to or concurrently. Application of knowledge related to management of acute, self-limiting and stable chronic conditions/families.

277. Family Nurse Practitioner Role in Tertiary Prevention (2)

Prerequisites: NURS 266, 267. Theoretical base for tertiary prevention for families in primary care settings. Assessment and management of chronic conditions requiring reconstitution. Development of protocols/algorithms for tertiary prevention. Integration of knowledge related to primary, secondary, and tertiary prevention.

278. Practicum in Tertiary Prevention, Family Nurse Practitioner (4)

Prerequisites: NURS 266, 267; NURS 277 prior to or concurrently. Supervised clinical practice in a primary care setting with emphasis on care of clients of all ages requiring tertiary prevention. Students work directly with a nurse practitioner and/or physician preceptor in a primary care setting. (One hour clinical conference per week.)

279. Pediatric Nurse Practitioner Role in Tertiary Prevention (2)

Prerequisites: NURS 266, 269. Theoretical base for tertiary prevention for children in primary care settings. Assessment and management of chronic conditions requiring reconstitution. Development of protocols/algorithms for tertiary prevention. Integration of knowledge related to primary, secondary, and tertiary prevention.

280. Practicum in Tertiary Prevention, Pediatric Nurse Practitioner (4)

Prerequisites: NURS 266, 269; NURS 279 prior to or concurrently. Supervised clinical practice in a primary care setting with emphasis on care of children requiring tertiary prevention. Students work directly with a nurse practitioner and/or physician preceptor in a primary care setting. (One hour clinical conference per week.)

281. Geriatric Nurse Practitioner Role in Tertiary Prevention (2)

Prerequisites: NURS 266, 271. Theoretical base for tertiary prevention for older adults in primary care settings. Assessment and management of chronic conditions requiring reconstitution. Development of protocols/algorithms for tertiary prevention. In-

tegration of knowledge related to primary, secondary, and tertiary prevention.

282. Practicum in**Tertiary Prevention,****Geriatric Nurse Practitioner (4)**

Prerequisites: NURS 266, 271; NURS 281 prior to or concurrently. Supervised clinical practice in assessment and management of acute, self-limiting, and stable chronic conditions of individuals and families.

288T. Seminar Topics in Advanced Clinical Nursing (1-3; max total 9)

Prerequisite: permission of instructor. Selected topics in specialized practice domains such as home health, cardiovascular, oncology, gerontology, and rehabilitation nursing. Analysis and integration of research-based knowledge into the nursing process characterizing the specific practice domain are emphasized.

290. Independent Study

(1-3; max total 3)

See *Academic Placement — Independent Study*. Approved for *SP* grading.

298. Project (3)

See *Criteria for Thesis and Project*. A project is defined as a systematic development of a plan for, or critical evaluation of, a significant undertaking or a creative work in nursing such as modularized curriculum and clinical protocols. Abstract required. Approved for *SP* grading.

299. Thesis (3)

Prerequisite: NURS 223. See *Criteria for Thesis and Project*. Preparation, completion, and submission of an acceptable thesis, based on an approved proposal, for the master's degree. Approved for *SP* grading.

IN-SERVICE COURSE

(See *Course Numbering System*.)

Nursing (NURS)**302T. Selected Topics in Nursing**

(1-6; repeatable with different topics)

Selected topics related to recent developments and advances in the knowledge and techniques of nursing. The purpose is to offer nurses, health personnel, and others the opportunity to study in-depth the selected topics related to specific clinical areas of nursing.
