Not sure, I believe I used Chair, Welfare Reform for the National Women's Political Caucus. I was an elected Texas Delegate - because of I was working in Texas - away from my California home. I was heavily involved with the ratification of the equal rights amendment successfully bringing Catholic support to the Texas hearings.

What was your title from the Houston Conference?

Dear Pam,

I figured you and Liz were swamped with conference details. Thanks for confirming talking points - this will make my presentation a delightful experience. I will be arriving in NYC Friday around 4 pm. I am excited - need I say more!

My title is:
 Lupe Anguiano, Director
 Stewards of the Earth
 a CAUSE Project

Hi Lupe,

Forgive the delay in responding to your first email. As you can imagine, things here are wild. I agree with the points you made. As I said in my recent email, I think we'll have to start out

11/7/2007

with a mini history lesson, just outlining for the audience what the NWC was, how the National Plan of Action came to be, etc. I want to discuss the feeling of Sisterhood we experienced at the Conference and how powerful that can be. Sad to say, I bet many young women and girls haven't experienced it yet. That's why I titled the panel "The Spirit of Houston," so we could explain what that meant. I hope you will discuss how the "Minority Women" section of the National Plan of Action came to be. People need to hear that story. I also hope we talk about how many NPA recommendations have still not been implemented. And for the Conference Program, I need to know what title you want to use. I look forward to seeing you soon.

All the Best,
Pam

Dear Pam,

Have you decided points I should cover at the "Freedom on our Terms Conference?" I am excited about hearing what young women and girls have to say. I leave for NYC Friday at 3 am and will not have access to a computer till I return to Oxnard.

I sent e-mail to Marjorie letting her know I would be delighted to participate in her book.

Help! Help!

Lupe

Subject: Interviews Requested

Dear Friends,

Historian Marjorie Spruill, Professor of History at the University of South Carolina, has contacted me to request interviews with those of us who were Houston delegates/participants and/or IWY leaders. She is working on an exciting new book on IWY and its legacy/impact. If you are interested in scheduling such an interview, please contact Professor Spruill at the email address listed above or this phone number (803-727-8560). She will be attending the Freedom on Our Terms Conference and participating in the Feminist Activism workshop.

Thanks,

Pam Elam
