

The voice of Michelle Serros sings and mourns and dances inside a cultural spectrum of beauty and pain. These poems and stories bloom from a universe that nurtures and represses, that embraces and attacks, that denies and celebrates the paradoxes of her being. Michelle Serros meets the interpersonal & cultural challenges of our time with a tender and critical eye, a soothing voice, a fluid emotional insight. In this, her first volume of poetry, Michelle Serros expands the walls of personal and political definition meant to smother her. Lyrical, sensuous, and deeply sensitive, Chicana Falsa is an excellent and necessary expansion of the literary cannon of American women. We must welcome her."/>
