FROM THE PRESIDENT

As President of California State University, Fullerton, I am pleased to welcome you to our 40th annual commencement. Commencement is a very special time for degree candidates, families, friends and other members of the campus community. It is a time when we celebrate the successful conclusion of degree programs designed to foster the development of humane leaders prepared to meet the opportunities and challenges of a changing, diverse world.

Today the university honors some 6,205 undergraduate and graduate students who completed degree requirements in January or who are scheduled to do so in June or August. It is fitting that recognition of your accomplishments should be in the presence of your professors, relatives and friends who have participated in a variety of ways in helping you attain your academic goals. As candidates for graduation, you are the proud products of our academic enterprise. We hope that you forever will be life-long learners dedicated to the pursuit of excellence and the importance of life issues.

On behalf of the faculty, staff and students of California State University, Fullerton, I extend heartiest congratulations to the Class of 1999 upon reaching this educational milestone. I wish each and every one of you the happiness of a productive life, the respect of your fellow human beings, and the love of your family. The future is yours.

A handwritten signature in brown ink that reads "Milton A. Gordon". The script is fluid and cursive, with the first letters of each name being capitalized and prominent.

Milton A. Gordon
President, California State University, Fullerton

FROM THE ALUMNI

On behalf of the CSUF Alumni Association, congratulations to the Class of 1999! As you enter this new phase in your life, I know you are anxious to claim your stake in the world and to make your mark in your chosen field. My advice is never to be afraid of trying or of dreaming. Don't be afraid of failure; try it all. However, try not to run through life so fast that you forget where you've been and the many people who have helped you along the way.

You now join more than 125,000 fellow Cal State Fullerton alumni, many of whom have made significant contributions in business, the arts, education, science and engineering. You are in good company. We invite you to maintain your ties with your fellow graduates and the university through the CSUF Alumni Association. Together we can build a strong network of Cal State Fullerton alumni.

We established the George G. Golleher Alumni House to serve as your gateway to the campus after graduation. We encourage you to join us at some of the various activities hosted at the Alumni House each year.

Once again, congratulations on our accomplishments and best wishes for the future.

Mary Louise Hlavac '80
President, CSUF Alumni Association

ABOUT THE PROGRAM

LIST OF CANDIDATES: Students eligible to participate in the 1999 commencement ceremonies are January 1999 graduates and June 1999 and August 1999 candidates who filed for graduation prior to the announced deadlines.

GRADUATION WITH HONORS: Honors at graduation are awarded to undergraduate students in three classifications and take into account all courses taken at Cal State Fullerton and other institutions of higher learning. The minimum grade point averages follow: Honors, 3.5 to 3.74; High Honors, 3.75 to 3.89; Highest Honors, 3.9 to 4.0. Students who have earned honors at graduation have been awarded ribbons with medallions that bear the seal of the university: white ribbons denote honors; orange ribbons denote high honors; and blue ribbons denote highest honors. Program notations indicating achievement of these awards are based on the students' records at the end of the fall 1998 semester. Official award of appropriate diplomas and recognition of honors achieved (which are indicated on the diplomas as appropriate) are contingent upon the candidates having met all university requirements and related criteria.

PRESIDENT'S SCHOLARS: Students who are President's Scholars are noted in the list of candidates. This program to recognize academic and extracurricular excellence is sponsored by the President's Associates.

FACULTY MARSHALS: The faculty marshal leading the procession in each commencement ceremony has been honored as the Distinguished Faculty Member

of that particular school. This distinction is bestowed by the president upon the nomination of fellow faculty members.

PHI KAPPA PHI: Among those participating in commencement ceremonies are students wearing a white ribbon with a zigzag design. These students have been elected to membership in the Honor Society of Phi Kappa Phi, a national organization founded in 1897. Students are selected for membership from all of the recognized academic disciplines based on records of outstanding scholarly achievement.

PHOTOGRAPHY: The CSUF Alumni Association has arranged for a commercial studio to photograph each graduate at the moment he or she crosses the platform. Proofs and information on ordering prints will be mailed, with no cost or obligation, to participants. Guests may take photographs during the ceremonies; in the interest of decorum, they are requested to do so from their seats.

ALCOHOLIC BEVERAGES: Alcoholic beverages will not be allowed at any time in the assembly area, at the commencement seating area or at other areas associated with commencement.

SMOKING: Please, no smoking during the ceremonies.

EMERGENCIES: Personnel from the Student Health Center and the Public Safety Department will be on duty to provide aid in the event of emergencies. The emergency telephone number is 278-3333.

CEREMONIAL REGALIA

3

The history of academic dress goes back to the medieval European universities of the 14th century. European universities continue to follow varied patterns in cut and color of gown and type of headdress. United States universities have standardized the academic dress so that its features are generally uniform throughout the country.

THE GOWN: The gown is ordinarily black for academic degrees, but certain universities have authorized the use of colored gowns. Light blue gowns are worn by candidates for associate degrees in terminal technical curriculums. The pattern varies with the degree held: pointed sleeves for the bachelor's degree; short sleeves for the master's degree; and round, full sleeves for the doctorate. The bachelor's and master's gowns have no trimmings. The doctoral gown is faced down the front with black velvet and trimmed with three bars of the same material across the sleeves—or the color of this velvet may be that of the subject in which the degree is granted.

THE HOOD: Hoods are not usually worn for the bachelor's degree. The master's hood is shorter and lacks the panels of the doctoral hood. Hoods are lined with the color of the school, two colors being shown by putting chevrons of one color on the other color. The binding or edging of the hood is velvet of the color pertaining to the subject of the degree.

THE CAP: The standard cap is the mortarboard, usually the color of the gown. The standard tassel is black, but at Cal State Fullerton many students wear tassels reflecting their disciplines. Doctoral caps have gold tassels.

TRIMMINGS: Color trimmings on doctoral gowns and hoods indicate the following: light blue, Doctor of Education; dark blue, Philosophy; white, Letters; brown, Fine Arts; golden yellow, Science; purple, Laws; pink, Music; green, Medicine; scarlet, Divinity; crimson, Humane Letters; and light coffee (drab), Business Education.

THE MACE: The mace is a ceremonial symbol of authority carried in academic processions at commencements and convocations. Originating in the Middle Ages, it once was a formidable weapon, held ready to protect the person of dignity. The University Mace, first used in 1975, and the mace holder, first used in 1979, were designed especially for Cal State Fullerton by John L. Berg, who earned his Bachelor of Arts in Communications in 1973, and Master of Arts in Art in 1976. The design of the mace reflects the university's architecture, colors (blue and white) and location—the site of the first commercially grown valencia orange grove. The stem is of cocobolo, a wood orange in color, while the university's colors are represented through the use of ivory and niello. At the top of the mace is the university seal.

SPECIAL HONORS

HONORARY DOCTORATE OF HUMANE LETTERS DEGREE

Clarence I. Nishizu

Clarence Iwao Nishizu, a resident of Fullerton, will receive the Doctorate of Humane Letters. Mr. Nishizu's life achievements have been dedicated to the betterment of society through his work as a humanitarian, philanthropist, civic volunteer, author and cultural ambassador.

Working diligently and tirelessly on behalf of all Americans of Japanese ancestry who were interned during World War II, Mr. Nishizu helped secure passage of the Civil Liberties Act, which was signed in 1988 and resulted in an official apology and reparations from the United States government.

His personal qualities of persistence, energy and optimism have enhanced the quality of life for Orange County through his active participation and service in such organizations as the Japanese American Citizens League, Orange County Grand Jury and Lions Club, of which he is a life member.

He has been a special friend of California State University, Fullerton since 1966, actively assisting the university's Oral History Program and its Japanese American Project through his own recorded contributions, as well as with substantial consultative advice and financial support. Currently, he is leading the fund-raising effort to build the Nikkei Agricultural History Museum and Library, part of the Fullerton Arboretum's planned Environmental Science and Education and Conference Center.

Mr. Nishizu's life is a tribute to family unity, his religious faith, a keen power of observation and his personal qualities of persistence, energy and optimism.

HONORARY DOCTORATE OF FINE ARTS DEGREE

James Cameron

James Cameron's vision and ingenuity as a director, producer, innovator and screenwriter have redefined and set the standard for filmmaking. His films represent a number of artistic, technical and commercial milestones that constitute a significant chapter in film history in the United States, as well as around the world.

His fascination with the movies from an early age inspired him to learn all facets of filmmaking, from its technical aspects to engaging storytelling, and in the process, he has successfully combined these three elements to create some of the most memorable films in recent years, including "Aliens," "The Terminator," "True Lies" and "Strange Days."

In striving to enhance and elevate the movie-going experience, Mr. Cameron used his fascination and experience in undersea exploration to help develop and invent equipment for such ground-breaking films as "The Abyss" and "Titanic." He also is a pioneer in the area of computer-generated special effects, and has redefined the parameters of what is technically achievable in simulated action sequences, backgrounds and heavily populated scenes.

His films have earned 17 Academy Awards, including 11 honors for "Titanic," one of the most expensive, lucrative and artistically honored films of all time.

Mr. Cameron's achievements as an artist, and his pioneering technical contributions to the business and art of filmmaking, make him a worthy example for aspiring artists, technicians and film industry professionals.
