

Students already in the nursing major prior to Fall 1976, may graduate under the catalog appropriate to them. The department has prepared a phase-out schedule for old curriculum courses whereby students may graduate at the time they have anticipated. Students must consult with the Nursing Department to determine their particular course schedule.

**NURSING MAJOR**

|  | <i>Units</i> |
|--|--------------|
| Nurs 1, 1L, 105A .....   | 9            |

Students are expected to enroll in Nurs 100 and 101 concurrently, 102 and 103 concurrently, and 104 and 106 concurrently.

**PLACEMENT EXAMINATIONS**

Registered nurses and licensed vocational nurses contact community colleges for AA degree requirements.

Any student may contact the Department of Nursing for the procedure for receiving credit by examination for non-clinical courses only.

**REGISTERED NURSES**

Registered nurses must meet the following criteria for admission: current licensure in California, evidence of graduation from accredited nursing school, AA degree from an accredited community college (diploma graduates contact community colleges for granting nursing credit toward AA degree), qualify for admission to the university and a grade of C in the prerequisite sciences and Nutrition, General Psychology and Child Psychology. (Effective Fall 1978, a GPA of 2.5 in the prerequisite sciences, Nutrition, General Psychology and Child Psychology.) The RN student is then ready to make application to the Office of Admissions of the university for the nursing major to enter the BS Program at the beginning of the junior year of the curricula and follow the pattern listed below to complete 31 units of nursing and other courses to qualify for graduation (total 130 units). The senior year offers a 2-semester course either in Episodic Nursing, centered in hospital, or in Distributive Nursing, centered in community setting.
