Re: Housing D.A.P.C. (Hacienda)

Dear Members:

I am concerned! I am not a judge, mayor, police chief, supervisor, school-teacher, etc. I am not a liquor-store owner or a transient of an apartment. I AM a home-owner with a child.

Many weeks ago I was invited and able to attend a neighborhood meeting where the arguments for the Hacienda were presented. I am not opposed to the project. I cannot, however, see this project in our neighborhood.

An American Dream, I read, is to own a home. One you can call "Home Sweet Home", taxes and all. Some Americans have had the "good luck" to realize this dream. Some never will! In the process of buying, many factors are considered.. One also plans, whether young or old, for a permanent base and studies the affirmative or negative issues diligently. We weighed our arguments scrupulously, we thought, when we purchased this house over ten years ago, realizing not everything could be perfect. But, never in a million years, whatsoever, did I believe I would have to accept the operation of a hacienda in my community.

I would appreciate a BIG big NO vote against the Hacienda in my neighborhood with no consideration of a waiver of a one-year as recommended, possibly.

I thank those of you who agree with me and are able to see "eye-to-eye" the matter as it really appears and comply. Those who cannot, I'll say, I will try to understand.
