

26 / GENERAL INFORMATION

Departmental and area accreditations, certificated memberships, and accrediting organizations include

Business	American Association of Collegiate Schools of Business
Chemistry	American Chemical Society
Engineering (Civil, Electrical, Mechanical)	Engineering Council for Professional Development
Health Professions Program	American Society of Allied Health Professions
Health Science (Sanitarian)	State Department of Public Health
Home Economics	American Home Economics Association
Home Economics (Dietetics)	Approved for admission to internship program of the American Dietetic Association
Journalism (News-Editorial)	American Council of Education for Journalism
Music	National Association of Schools of Music
Nursing	National League for Nursing
Physical Therapist Program	AMA Council on Medical Education/American Physical Therapy Association
Social Work	Accreditation by the Council on Social Work Education; and undergraduate and graduate membership in the Council
Urban and Regional Planning, MCRP	American Institute of Planners

FACILITIES

The University is located at Cedar and Shaw Avenues in the northeast section of the City of Fresno. Its 1410 acres provide for the expansion of facilities necessitated by a continually increasing enrollment. When the Shaw Avenue location was first occupied, during the 1953-54 academic year, there were only four completed buildings on what was then an 880-acre site. Ten years later, in 1963-64, major buildings on campus included administration, agricultural classroom, agricultural mechanics, home economics, bookstore, business, cafeteria, education-psychology, engineering, home management cottage, industrial arts, library, gymnasiums for men and women, music science, social science, speech arts, student health service and the first residence halls. Between 1964 and the fall of 1971, student administration, residence hall commons, classroom, and office buildings, a three-story college union, new bookstore, and a new art building of contemporary design were constructed. There are now more than 45 buildings in service. Completed during 1975-76 is a \$7,368,000 additional science building. Future plans include an addition to the library.

The buildings are in a setting of colorful trees, shrubbery, flowers, and lawns. A tree-lined amphitheater accommodates commencements, convocations, and other large assemblages and provides an outdoor setting for numerous programs and gatherings during the year. A centrally located memorial court, benches, and fountain are favorite spots for relaxation. The adjacent free speech area and college union are centers of student life and activity.

A farm operated by the School of Agricultural Sciences includes more than 34 structures and is considered one of the most modern and best equipped agricultural plants in the west.

CENTER FOR INFORMATION PROCESSING

The Center is organized to serve all information processing and computation needs of the university including instruction, research, and administration. It provides a variety of direct and indirect free services to students. Consultants are available in the Instructional Laboratories to give assistance in the use of facilities and computer programming and the laboratories provide timesharing terminals, keypunches, and sorters for students. Approximately 25% of the students now make substantial use of the facilities. Use of the computers in the instructional program is increasing at a rapid rate. The Center is located in the west wing of the School of Business Building with offices in San Ramon 4. The principal hardware, a CDC 3150, supports most of the major computer languages and, via a teleprocessing circuit, has access to other larger computers and to a statewide interactive timesharing network. A DEC PDP 11/45 Timesharing Computer also provides substantial support to instructional programs.
