* This is the Urban Take Line as depicted on the 1973 Ventura county Open Space Plan

Action of the Executive Committee Meeting - November 1, 1973: "That the Population Projections which have been prepared by the County Planning Department and conditionally approved by the City/County Planning Association, be adopted for planning purposes only for a period not to exceed one year. The forecast for 1990 is a demand projection rather than policy forecasts made by each of the ten General Governments within VCAG. This recommendation is being made because of the need to present a Transportation Plan for Ventura County by April, 1975."
