

Some points on the film Communism on the Map

We deplore the use of Communism on the Map as a training film by the U.S. Naval Headquarters Pacific Missile Range, Point Mugu. The frequent showing of this film at the base and past showing of it in the Community is

Our Committee viewed this film this past week. It attacks our democratic form of Government, our past Presidents, and the Supreme Court.

The film undermines one's faith in our Press, our labor unions, our religions and in the possibility of any democratic society combating Communism. By inference only the dictatorships ^{like} of the world/Chiang Kai-Shek's and Bautista's are bastions against Communism.

This film preaches a John Birch Society approach to combat Communism ---Your government can't do it. Only you and I and our neighbors can.

April 9
Welch claimed that his John Birch Society has been responsible for more showing of Communism on the Map than any other group. We wonder if he is counting the Navy's contribution.
