Thank you, Lupe, for sending those to me! I am forwarding the one on Latinos and museums to Tim Schiffer, our director. I think it's a great article.

I hope it is still fine to bring our son, Robert on Saturday on such short notice. Were you able to find out about that?

I will call you later on this evening to confirm a pick-up time with you.

Anna

Lupe, did you try to "copy and paste" the link onto your search engine? For some reason, sometimes clicking on the links don't work and you have to "copy and paste" the link onto your search engine. However, I'm attaching the Word documents for each of the articles in case that doesn't work for you. Thanks!

Steve

Steve,
 I can't open this, please send to me via a different format, I called David via his cellular - no response. I have to go in person to visit him - am thinking about timing (when would be a good time).
 Lupe

Hi Lupe, not sure if you saw the recent press coverage about the Chicano Studies Research Center in the LA Times, but it was quite impressive (two articles within a week of each other!). One was about Latinos and art museums (they quote our Center's director Chon and mention CSRC's collaboration with LACMA) and the other was about artist Gronk's planetarium show and the recent book CSRC published on him. I'm attaching the links in the event you didn't catch them. I trust all is well. (By the way, any chance you could forward these links to David Lizarraga? Since he knows you, he'll be likely to read your email.)
