Dear Michele!

This is one of my favorite mameo stereotypes! "Stories'n'Stuff" by Michele Serros (please send me your press book again, Michele. I'd like to give a nod to your WONDERFUL FUNKY and as I am now a writer for the new online service whose secret name is iGUIDE and it will launch in Feb. and I'm trying to give you a NOD AT MICHELE'S COMET BUT NOT OUT a mention in the first roundup. SO...

Lots of voices on the four cuts on her demo, including the fabulous Luis Alfaro. But it's more like a barnyard chorus with Michele's stories, like a slammin folkie, a wide-eyed know-that-not-knowing it is way beyond knowing it type, always leading the way through the outrageous sound collage provided by Marcos Frommer.

This CD breaks new ground like your highschool sweetheart broke hearts.

PS I love you.

PPS - Will you come to the Nuyorican gig at UCLA on Feb 2? I'll get you comps. And the USOP screening on Feb 9?
