

MAR 4 1930

~~Can't the~~
my impression is that
the ^{total} count in front
of the plume would make
the total mass of Blay ~~total~~
thus point to bulking for
the location - ~~of the~~
~~make the~~ I see
no objection to omitting the
fore count, but ~~not~~ ^{now} ~~the~~ the
~~as no building~~ but ~~the~~
~~as its old~~
for being does ^{now} ~~not~~ ^{mean} ~~not~~ ^{exist}.
Ann would of the under
count could take the place
of house D - of space
above, would you think it
good - yours W.T.
