

Residents must agree to live in the halls for the academic year. For information on residence hall costs, see *Fees and Expenses*. Further information and applications for reservations may be obtained by writing to the Housing Office. Application forms are available after April 1. Students who are applying for accommodations in the halls must also file an application for admission to CSUF unless already enrolled.

OFF-CAMPUS HOUSING

Students are advised to make arrangements for housing as early as possible before registration. The Housing Office maintains a file of available off-campus living accommodations. A large number of apartments are available in the area adjacent to the campus. Accommodations are also provided by private homes in the area, with a limited number offering room and board. The Housing Office also receives a few listings on houses, duplexes, trailers, and other accommodations for rent, lease, or sale. Most of the nationally affiliated fraternity and sorority chapters at the university provide housing and meals for members at the chapter houses near the campus.

Some information on apartment rentals may be sent through the mail. Most listings and information available in the Housing Office are kept in loose-leaf binders because of rapid turnover; students must visit the office in person to consult these files. Students are also advised to inspect the premises in person before signing a lease. The university does not inspect or supervise any off-campus housing.

HOUSING FOR MARRIED STUDENTS

The university does not maintain housing facilities for married students and their families. The Housing Office does maintain a file of privately owned rentals, some of which are near the campus. These private rentals range from \$85 to \$300 per month depending on size, furnishings, and location.

STUDENT HEALTH SERVICE

The objective of the Student Health Service is to keep the student in a state of optimum health, both physically and mentally, so that he may realize to the fullest the opportunities afforded by the university. The health services are sponsored jointly by the university and the student body, the latter participating by means of a health fee each semester.

The Student Health Service is housed in its own building, with well-equipped doctors' offices and examination rooms, laboratory and X-ray facilities, pharmacy, nurses' treatment rooms, business office, and waiting rooms. It is open each school day during hours posted at the entrance to the building. At these times registered nurses are on duty and physicians are available for consultation. Many medical specialties are represented among the part-time and full-time physicians, affording a high standard of medical care.

In addition to the Student Health Services, students may purchase an insurance protection plan for emergency illness and accidental injury during hours that the Center is closed. This insurance program provides up to \$5,000 for hospital benefits, medical, surgical and related services for any one illness or accident. The program covers the student both on and off campus on a twenty-four-hour-a-day basis and includes periods of interim vacation and absences.

Medical Examination: Upon acceptance, a health history and physical examination form will be mailed to all new students by the Admissions Office. The health history should be completed by the student, the physical examination performed by a private physician, and this form mailed to the Student Health Service at least two weeks prior to registration. The completion of the physical examination is a requirement for registration at CSUF. Candidates for teaching credentials must secure approval of the Health Service at both the time of application for admission to credential programs and upon assignment to directed teaching. A credential may not be issued unless the candidate possesses satisfactory physical and mental health to meet fully the responsibilities of teaching.

LANGUAGE, HEARING, AND SPEECH CLINIC

The Language, Hearing, and Speech Clinic is part of the program of communicative disorders within the Communicative Disorders Department. Any regular student needing diagnostic or therapeutic assistance with language, hearing, or speech problems may arrange to secure the service of the clinic without charge.
