

Nov. 16, 1942.

Dear Ditty,

Seems to me I wrote a P.C. to you - my customary habit when I'm too busy to write a letter - Now if you consider (a PostCard a letter especially my P.C.'s you should) then it should be your turn to write. - But I guess I'll be generous this time & write you a letter - (a welcome change from my proverbial post cards & no soups)

Well, I'm being kept busy as usual. - In addition to my work in Dr. Carter's office - I was asked to teach a class in shorthand (3rd semester).

The teacher is going to be out for the rest of this month - so for about 2 weeks - the six girls (yes, only 6 in this particular class, very fortunately) are going to have to suffer.

I was kinda scared at first -
but after I got into it & it
was kinda of fun. - One hour
a day would be so bad (I hope)

Tonight - I ditched my
Psych class - Did you know
I was taking Psych. I-A -
auditing it really - didn't get
much from Johns - & Dr. Carter
is giving it as though the review
might do me some good -

Usually one night a week -
Monday - from 7:00 - 9:00 P.M. -

But I played hockey to attend
a club meeting. Joined the
Delta Y club - affiliated with
the Y WCA - Have Business
Girls & High School Girls Conns.
Played games, Business, and
then refreshments - Cocoa,
crackers, cheese & jelly. - Might
sound plain & uninteresting to
you - but for me - it was

delicious — a treat. After
 washing the dishes and finally
 got home I'm pretty tired
 & sleepy — but thought I should
 catch up on some of my letters
 that have been neglected for
 some time — so I have been
 scribbling — trying to think
 write & keep awake at the same
 time.

How's our defence worker
 getting along? Engaging your
 work as usual? Do you still
 get your rides to and from
 work in very pleasant
 company? — Has returning
 isn't going to bother you, is
 it? Since we have to walk
 any time we want to go anywhere
 in Manzanar — it doesn't bother
 us so much. — but still they're
 emphasizing cutting down mileage
 on the gov't cars used for
 business on the project.

P

Don't be surprised if I fall asleep
while writing. Boy, I sure
feel like dozing off. I can't
think straight (that's only
natural) - so perhaps I'd better
stop & try to do better next
time. Besides it's very
uncomfortable trying to write
in bed. —

So - until I hear from
you.

Be good - Lovie - and
love hard —

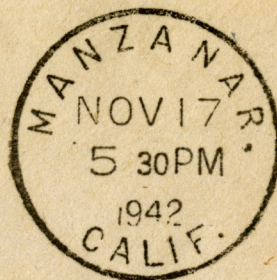

Love, Lovie
