Subject: Re: Draft Proposal

Amanda:

Thanks for sharing the Echoing Green and New Voices funding leads; I researched both sources and found the Echoing Green Fellowships a good match for the project we/CSUCI and partners want to do. The Fellowship's are applied on line - 77% funded focus on environmental issues. I suggest Don explore interest of his students applying. The competition is strong, however not many Fellows are from the California - where the issue of protecting our Ocean Shores and LNG have become National concerns. I suggest at least 3 students apply.

New Voices is a Gulf Coast Project, administered by the "Academy for Educational Development." To qualify the Fellowship applicant must be sponsored by a Gulf Coast Region non-profit - (Alabama, Louisiana and Mississippi also Texas and Florida). This initiative was created in response to the Katrina and Rita Hurricanes.

The good news is that I know the leader who helped develop funding for New Voices, Pablo Eisenberg a long time non-profit icon. He has promised to help me/us in our funding search for our Renewable Energy Program - as soon as we have our proposal ready.

I am looking forward to our meeting tomorrow.
 Lupe

Subject: RE: Draft Proposal

Dear Lupe,

I will schedule a meeting for us to meet so that we can work on the proposal draft and budget together. In the meantime, I mentioned to Frank that there are some funding opportunities for starting a 501 c3 that may interest you . I would encourage you to look at **Echoing Green's** opportunity as the choices you make now regarding the establishment of a 501 c3 may make you ineligible for this type of grant. Please see the link below for more information.

Echoing Green's mission is to spark social change by identifying, investing and supporting the world's most exceptional emerging leaders and the organizations they launch.

What is the total amount of your grant and how is it paid?

- Fellowships awarded to individuals are \$30,000 a year for two years, or a total of \$60,000. Fellowships awarded to partnerships are \$45,000 (total per project not per individual) for two years or a total of \$90,000.
- Echoing Green pays the grants in four equal installments over two years. The first payment is issued in early September 2007. Subsequent payments are made in March 08, September 08 and March 09.

10/30/2006

The second opportunity I mentioned does not appear to match your interests right now, however their priorities c (2008).

<http://newvoices.aed.org/home.html>

Thanks for including me in the meeting and I look forward to working with all of you!

Best,
Amanda

Subject: Draft Proposal

Thank you, Amanda for explaining CSUCI's partnership process and for your interest in working with us to insure the draft proposal ideas are well received by CSUCI. I am eager to comply with your recommended suggestions and follow through with them.

I am pleased to have had a past - good working relationship with Marty de la O; I worked with her (and supported her efforts) - when I worked as a Counselor at Ventura College and she was head of the College Foundation.
