

April 9, 1934.

Dear Miss Morgan :

*John (side of A)
below*

I have returned by registered mail a "study of rear elevation of main building, "drawings for" new bath room, tower room House C," and a small sketch that I cannot identify-- all of which Mr. Hearst was holding here and which he now thinks you may need.

There is still no trace of the front and side elevation drawings, for which I am sorry.

You will recall that Mr. Hearst wrote you fully about the rear elevation study.

Sincerely,

J. D. McClelland

Love Mrs. W.

*I thank you for getting
the drawings for me. I still look*
