Reports:

Chair's Report: Karen Thompson

- From the last Executive Committee meeting: (1) The Provost informed the Executive Committee that Sonoma State has declared impaction status for the 2009/2010 academic year. (2) In response to the AS request to have student representatives on all search committees, the Structure and Functions Committee proposed that students should have more equal voice on student affairs-related administrative search committees, but not on all search committees.
- From the last Senate meeting: (1) It was announced that the Dept. of Mathematics will now be called the Dept. of Mathematics and Statistics. (2) The revised RTP policy was discussed again. Voting on that policy is expected at the last Senate meeting. (3) Robert Train's report on International Programs at SSU showed that SSU is 4th in terms of the number of students sent abroad. Currently, there are 56 students who have been accepted for study abroad programs in 11 countries. Also, SSU has 70 international students on campus from approximately 20 countries.
- An ad-hoc committee has been formed to investigate the issue of "after-hours" services to students. Karen will be speaking with Chuck Rhodes this summer to coordinate SAC's role in the process.
- Committee membership for the 2008/2009 academic year: Derek, Maureen, Jennifer, Karen, and Mack will be returning. Luis Vega will be the new ACE representative. It's unclear if the Library will be sending a representative. A replacement for Leny Strobel will be needed for Fall 2008 while she is on leave.
