

Dear Miss Morgan:

July 8th 1928

I understand
the plan to be

First that we
will finish the terraces
which we are actually
working on now, - namely
the South terrace, the terrace
in front of B the terraces
on each side of the pool
and the plaza terrace in
front of the main house.

Then we will do the interior
pool and baths under the
tennis court and the new
roof to the main building

Incidentally we will install
the elevator and the bells
if they arrive.
I imagine these things will
carry us until about Christmas
work
