

OFFICE OF  
WILLIAM RANDOLPH HEARST  
WYNTON  
MCCLOUD, CALIFORNIA

September 4, 1938

Dear Miss Morgan :

Mr. Hearst said today that he would like to have another dozen of those bronze placques or bas reliefs of his mother that you had made in France, and told me to find out how much they would cost.

HE WOULD LIKE THEM IN GREEN BRONZE.

I told him that I thought they had been made by a friend of yours without charge, but he said he did not want them that way; he would like to pay for them.

Also, he would like to get some of the smaller ones with the inscription on the back. He would probably want a dozen or more of those, according to the price.

Also Mr. Hearst said he did not know if there was an inscription originally on the large one.. I told him I thought he had asked to have it left off. Then he said, regardless of whether or not there was an inscription on the original larger one, he would like to have it on the dozen green bronze ones he now desires.

Will you please let me know about this at your convenience, and oblige,

Yours with best wishes,

J WILLIAMS
