MEMORANDUM

To: The Senate Executive Committee

From: Marilyn Wilson, Chair
University Graduate Committee

RE: Professional Science Master's Degree in Water Resource
Management

MSC: MCS to approve second reading for the Professional Science Masters (PSM) in Water Resource Management (2/26/2013).

The program was presented by Peter K. Van de Water, Department of Earth and Environmental Sciences, and Scott Moore, Global and Continuing Education. The program is designed to meet the need for advanced knowledge in water resources. The program will be open to professionals with a bachelor's degree and delivered in a cohort model; Instruction will be on-line plus an internship. The courses have already been approved at the college level and Grad Curriculum committee. The program has also been approved by the University Budget Committee.
