

214. Seminar in Language Disorders of Children (3)

Prerequisite: C D 102 or 121, 112, or permission of instructor. Etiology, symptomatology, assessment, and habilitation of language disorders in children. Practical experience includes diagnosis and management of a child's language disorder. Clinic sites on campus and in public and/or private schools. Travel to off-campus settings at student expense.

215. Seminar in Voice Disorders (3)

Prerequisite: C D 104, 105, or permission of instructor. Nature of normal and deviant vocal production. Symptomatic assessment and voice therapy.

218. Research Methodology In Communicative Disorders (3) (Former C D 113)

Prerequisite: Undergraduate major in Communicative Disorders; permission of the instructor. Concepts and procedures for research in Communicative Disorders.

220. Communicative Disorders of Second Language Usage (3)

Prerequisite: Ling 131 or 134, or permission of instructor. Seminar in clinical approaches to speech and language therapy for those for whom standard English is a second language; emphasis on U. S. minority groups.

230. Advanced Clinical Practice in Speech and Hearing Therapy (1-3; max total 6)

Prerequisite: C D 105, 106, 112, 130 or permission of instructor. Supervised clinical practice in diagnosis/treatment of complex speech and hearing problems; causative factors; outlining therapy; parent counseling; referrals. Clinic sites on campus, satellite centers, and public and/or private schools. Travel to off-campus settings at student expense.

231. Seminar in Audiology (3; max total 6)

Prerequisite: C D 131 or permission of instructor. Projects in library research or experimentation.

232. Seminar in Differential Diagnosis of Auditory Disorders in Children (3)

Procedures for differentiating children who may have hearing deficits, mental retardation, emotional disturbances, or brain dysfunction. Syndromes characteristic of these disorders.

233. Seminar in Analysis of Hearing Aids (2)

Prerequisite: C D 131, 133, 231, or permission of instructor. Study in depth of current hearing aids, body, post-auricle, and insert types; specific application to conductive and sensory-neural hearing losses. Analysis of frequency response and harmonic distortion of various instruments; theory of sloped amplification.

234. Seminar in Industrial Audiology (2)

Prerequisite: permission of instructor. Principles of industrial hearing conservation and the design of a comprehensive plan for a specific industry.

250. Advanced Clinical Practice, Audiology (2; max total 6)

Prerequisite: C D 130, 131, 132, 133, or permission of instructor. Supervised clinical practice in diagnosis and treatment of complex hearing problems; causative factors, counseling parents, therapy planning, etc.

260. Advanced Clinical Practice, Education of the Deaf (2; max total 6)

Prerequisite: C D 132, 136, 162, 163, 164 or permission of instructor. Supervised clinical participation and practice in clinical/classroom teaching of persons who are deaf and severely hard of hearing; parent counseling. Therapy planning and implementation. Clinical sites on campus and in public and/or private schools. Travel to off-campus settings at student expense.

262. Seminar in Speech for the Deaf (3)

Prerequisite: C D 162, permission of instructor; and successful completion of the NTE Commons Branch Exam or Single or Multiple Subjects Credential. Development of oral communication for deaf child. Detailed study of essentials of good speech and methods to build or correct speech of the deaf. Projects in library research or experimentation. Includes demonstration and off-campus practicum. Travel at student expense.
