01:17:51:08 - 01:18:09:09

Speaker 1

Which at this week sort of reminder. So I think it really remind that men in women in the arms service. Sometimes pay online of duty another and country service to country. When we.

01:18:09:12 - 01:18:11:10

Speaker 2

Programs.

01:18:11:12 - 01:18:22:13

Um, you have it in you have to read other. Programs. Um, but this sort of inside. Um, en mi opinión, in many of your opinions between benefits.

01:19:48:16 - 01:20:04:29

01:20:51:10 - 01:21:28:02

And the guy recruiting probably. Well, didn't go exactly the way. They were going to go out and all.

01:21:46:06 - 01:22:28:04

Speaker 1

Bowling Point is there a few basic benefits that the contract under all to explain. Therefore each contract. I know look. Look at military responsible to you know how. Budget time to budget. The people serving Get the attention and the people. Retire to fight for themselves when you do a very good job, but it is is that if the walking about something that I can hold em accountable responsible.

01:22:28:04 - 01:23:07:03

Speaker 1

Por eso I would all of you. And if you know and place across if you can get to get any to help me in pressure that we take a Azure to sex. It would do a great service of people who. Would be a good service for the country and that people would feel like that we are commitment and sometimes a hard to make people in their commitment outside of other support which quickly for you.

02:09:35:03 - 02:09:59:27

Speaker 8

I like to say and I hope that a lot of the use in the room will be able to go to the National Convention en Colorado Springs. Long trip from here, but I'm very excited to 11 that at the National Convention en Colorado Springs. Secretary Jessie Brown will be a speaker at a convención. We were very happy that will be able to it convention.

02:09:59:29 - 02:10:30:07

Speaker 8

That out with that with National Commander Aldrin. Just last week. Tony Morales and so we are very happy that will. Well, we have the secretary at the National convention. This is that we can Washington this. We know that that everybody has been looking at the papers in the wall very close to one. But it's been a tope. We can we Washington in around the world in this week should remind all of us that the price of this is you.

02:10:30:09 - 02:10:55:09

Speaker 8

And it is our men and women in uniform the brand of it are is just is important to the veterans of anywhere in our history. We are modesto. You have experience both end of the emotional Spectrum of this tragedy sorrow and morning for the lots of Ironman first class. Justin wood. Who was killed in the black and sorry rabia.

02:10:55:11 - 02:11:32:09

Speaker 8

Employee in the end relief over the safe horn of staff Sargent, Alfredo Guerrero junior sent something through the building a leading people to get out before the explosion. Nineteen Americans were killed in our lord hundred. And that last they were not fighting a but the Jeff and psicológico scars this real any resalten from combat our obligation for them and their families is just the to today as it was years ago when the first benefits for American created.

02:11:32:11 - 02:12:07:26

Speaker 8

So what does that obligation meant to those men in women in their families for those who were injury be there to provide medical care. Rehabilitación compensation education en Job training ensure everything we can give them to offset. The negative effects experience that will lead normal and happy

end Productive lives does witness the event and it's after math and scape may find the memory of what they have seen will be more time.

02:12:07:28 - 02:12:39:02

Speaker 8

Vi will be for that will be there for them psychological counseling and treatments to help them deal with the effects of post-traumático. Stress those who were killed much more than a very and a payment to them for the children independent parents pay dependency compensation a monthly payment to take the place of the income of the turn side educational benefit.

02:12:39:02 - 02:13:05:04

Speaker 8

So that and the children King's college or training. Homeland care. And their health insurance will be met by the best of out en metálico. Program.

02:13:05:07 - 02:13:41:02

Speaker 8

This is what keeping the promise to america's veterans means anyone in the home forces must be secure in the new age that if anything happens to them and they will be taken care of we have a as a reminder of our mission. We call it putting better first and over the past three years. We have formed a partnership veterans organizations like to give for forum significant progress in many áreas that affect battery.

02:13:41:05 - 02:14:15:25

Speaker 8

To the week for compensation benefits experienced long douglass because of a backlog that head build up. We have that backlog ten and have and we are working having that backlog. Manage rates process claims within hundred days. We have. Go for work experiencing an explain analysis from there are services and we are doing everything we can in partnership with diode helping human services department to try to find out.

02:14:15:25 - 02:14:48:20

Speaker 8

What is making all we are doing research for the research. We are Compensation dos and we are here disabled illness we are also riding health care Priority health care for our and we also have a program now that enables the children a person golf getting exam at affiliate facilities around the country and we have a personal outline that enables them to to talk to us.

02:14:48:22 - 02:15:14:29

Speaker 8

Firebase so we're happy with the progressive patterns. It's not a know if we still need to find the answer of their own news. I know the the same of you in the room will be very happy. Uh, last man when the present it came forward. The new is that will be for exposure agent orange. This is in one going and and I know how many of you.

02:15:14:29 - 02:15:45:10

Speaker 8

Don't remember a lot of the one and from from the Vienna more, but they should be in a exposed agent orange launch and it as a close to diseases as a result being exposed and in a process of going to a concert review of the scientific material that he was in that there would be new diseases add on that that veterans could be services connected for those who are.

02:15:45:13 - 02:16:16:03

Speaker 8

Happy and cancer and not list of all cánceres in my love cánceres. And I love is that we're on the list already in one. You know very president as well, if regarding the children of and that is the present that we would be producing. Developing legislación that would cover those children of Vietnam veterans.

02:16:16:05 - 02:17:12:09

Speaker 8

Which is an aumentada effects that the spinal cord and in a deformación of the spinal cord and and that is is very president. Never in the history of the children. But this particular disease there is there is evidence. Perhaps there is an asociación with the parents Vietnam. So so we're right now. Drafting legislación and the different as society for many years and we had represented Well, and this and also the presidente gi forum there were different in from the Washington area in the audience to receive the presidente dice something that you.

02:17:12:11 - 02:17:37:05

Speaker 8

Go back technology. You know what we think that were right in the middle of the technological Edge. Energy Forum you're on the cutting edge because I'm out a us and I'm sure that you will go through computers at home in your tapping into the world wide web TBI as the largest world wide website. We see the is a wonderful opportunity to be able to connect with our veterans those who are interested in finding about the benefits.

02:17:37:12 - 02:18:00:09

Speaker 8

They can tapping to the world wide web good visit and if they speak Spanish. They can just punch up the Spanish version of their federal benefits veterans and we're very very proud of that. And we have this will help us. Communicate more and better with veterans around the country regarding their benefits on the health care side of the week.

02:18:00:11 - 02:18:26:18

Speaker 8

We have a that that some of you may have had a opportunity to meet up here in California Crisis from California from you see Davis originales. Name is ken Kaiser is completely than healthcare. You know another upside down, turn it back and reorganice the whole place out of them out of the real organization for those of you. Go to the view hospitales.

02:18:26:18 - 02:18:47:07

Speaker 8

We help you don't notice anything better services, but a lot is happening where dream lining changing our management structure is what we're trying to do is we're trying to take a resources and we're trying to put the resources where we need very simple. We should be able to just put the resources where we need never was that simple.

02:18:47:07 - 02:19:26:25

Speaker 8

We have a sorts of congressional mandate and loss restrictivas. We'll do and then I march show kidding about that as you can't congressional loss. But I get around a few of them and what we are doing. We are looking at the country in regions and we are where the world kind of needs do they have several. Long

term and let's moved resources into where the needs are and we're doing this very effectively around the country and something a little bit more close to give you and update on Travis.

02:19:26:28 - 02:20:07:02

Speaker 8

Día the we have related that was proposed in the presidents budget last year as well for funding of the of the new medical center for spaces is supposed to replace martinus that was close because of the the structure damage from there from the way of distances now and and as I just say the president added and is badge it's going through the house communities and they do have the funding the house have the funding for the centered Travis in there, but now the center as not yet.

02:20:07:04 - 02:20:25:09

Speaker 8

So the still remains that and then if they come up with anything different, they have to go to conference, but on the outside Travis is looking good. They put it back into the construction and for the construction the hospital. There is already about.

02:20:25:11 - 02:21:07:06

Speaker 8

Seven million dollars. You know that hospital in fact we'll be in house and with travis Travis funding and I know that that's important to a lot of the Northern California in the room because because it right up. ¿How? ¿About news? But it is Travis is located in a catman area about four hundred thousand and so it's it's a much needed facility, but for that each mineria and then hospital just need to be released.

02:21:07:08 - 02:21:33:10

Speaker 8

We are in addition to travis and and I talk to to take about this chase a little bit before we started. But in in our. But we're building this one hospital. But this is probably going to be one of the last hospital. Yeah. Commander governance that we have more access point. We need to have it's. It's bind have great health care, but if it's not where everybody needs to health care.

02:21:33:12 - 02:22:14:26

Speaker 8

Then it's not doing anybody and good. So what we are very ovule is it in the future that has to develop new access point right now. Congress approved a pilot program to open access point and it's it's a little bit different and Hamming I hospital somewhere. If you well, it's been able to contract out here to put a position trainers in a location where they can access to health care or something can get a prescription fill and get out in treatment within the this is our future.

02:22:14:28 - 02:22:40:12

Speaker 8

It's very important that we be able to take our resources input veterans need is necessarily it datastore access to get in access point where they can get to it and we have been contemplado. You know how we're going to do this. We make propósito congress and and they're going to let us do a pilot with shifting access additional access points in en Windows.

02:22:40:12 - 02:23:04:11

Speaker 8

Not a lot of money to go around a Washington. This is really big three. Four. Doctor Kaiser and for the health administration. So we are very pleasant. We all that we will be able to provide. Uh, where access point for change in the future. And this would be the way behind the future. And now issues with you know final points issues.

02:23:04:13 - 02:23:39:13

Speaker 8

But I know everybody was very interesting. I just want. You know. I am día what I like to do is. I'd like to take your time to discuss the end of the give forums mission of advocacy. Mariana got it to just a little bit go and and I like to eco that issue. You know the view is a long way since doctor Héctor Garcia began fight for the right of hispanic veterans and found the American gi Forum.

02:23:39:15 - 02:24:07:20

Speaker 8

Yeah, Todavía as an office of minority represents Hispanic community decision spacing veterans and we have programs to meet the challenges reaching out to the hispanic community programs only came about because someone speak up for them and for someone are in this room. They're part of the forum.

02:24:07:22 - 02:24:34:04

Speaker 8

And that is only beginning Tradition of doctor García one together and let you voices Make your own in your communities, but in the house of congress and you must forward yourself into a little forest. They can be the needs to be back end. Web and and I know that you know that these are words for for your eyes.

02:24:34:09 - 02:25:00:05

Speaker 8

But there is a real strong me. You know all you have to do to look around you for example of Android kids are here the people around you. They are they all of the Apple yesterday. Everybody newsroom and everybody to get you. And there will have a kids on your behave wire. They doing that because they see you as they have a kids off the future.

02:25:00:08 - 02:25:35:22

Speaker 8
