A Message to our Guests. . .

PHOTOGRAPHS: Guests are requested not to stand in the aisles or block the view of others, for the purposes of taking pictures. Photographs may be taken from a designated area only. After the ceremony is completed, there will be ample opportunity to seek a wide variety of backgrounds for pictures on the campus.

A commercial photographer will be taking pictures of all graduates who cross the stage. A proof of the picture will be sent to each graduate, at no charge. Pictures may then be ordered as desired, though there is no obligation to do so.

EMERGENCIES: Staff of the University Health Center and the Campus Public Safety Department will be on duty. Student ushers and faculty marshals will be able to assist visitors who may have need of emergency service.

SMOKING: The University respectfully requests that there be no smoking during the ceremonies.

A Message from the President. . .

Dear Graduates and Friends:

Today marks the formal end of a portion of your education. No doubt, you will continue to be educated throughout your life and you may even seek once again to continue your formal education. We at California State University, Long Beach congratulate you on your achievements today and wish you the very best in the days to come.

Your education marks the convergence of a number of forces favorable to your success: this university, its faculty, your fellow students, the taxpayers of California, your parents and friends, perhaps your spouse, and you. As important as you have been to your own achievement, you simply could not have done it on your own. I hope that as the years accumulate beyond today that you remember the gift that you have been given and that you will return something to the society and to those who have supported you. Especially, I hope that you will remember your university and recognize that those students who come behind you are as in need of your support as you have been in need of the support of others.

Congratulations and good luck.

Sincerely,

Curtis L. McCray
President

**Welcome to
California State University

The Forty-Second Annual Commencement Ceremony**

CSULB, an urban, comprehensive University, is a member of the twenty-campus California State University (CSU) system. The history of the institution began in 1947 when a state survey, based on post World War II population growth, recommended the founding of a state college to serve Orange County and southeastern Los Angeles County. The college was established on January 29, 1949. Primary emphasis was to be given to teacher education, education for occupational competence, liberal education, pre-professional education, and regional education service. Students registered for the first classes, held in a converted apartment building, in September of 1949 at a cost of only \$12.50. The original *Schedule of Classes* contained only twenty-five courses and a selection of five majors for the baccalaureate degree. In the first semester there were 169 students and thirteen faculty members.

During the 1950s, under the leadership of P. Victor Peterson, the campus expanded to its present site of 320 acres. In this early era the *Forty-Niner* newspaper was established. It was not long before the rabbits, meadowlarks, and sheep disappeared to be replaced by the Language Arts, Fine Arts, Library, and Little Theatre buildings. Enrollment increased in 1953 when freshmen and sophomores were admitted.

Under Carl W. McIntosh, the expansion continued in the 1960s with added physical facilities, increased program offerings, increased faculty, and a surging student enrollment which by 1966 had passed 20,000. The educational mission was modified to provide instruction for undergraduate and graduate students through the master's degree in six schools: Applied Arts and Sciences, Business Administration, Education, Engineering, Fine Arts, and Letters and Science. In 1965 an International Sculpture Symposium was held. Eight world-renowned sculptors created permanent monumental works of art on the campus.

The decade of the 1970s, under Stephen Horn, saw further growth, restructuring of the University, development of a University-wide system of academic requirements, and emphasis on the internationalization of the curriculum. In June 1972, the California Legislature changed the name to California State University, Long Beach and by 1973 student enrollment reached 30,000. Additions made to the campus in this decade included: the Student Union, the Learning Assistance Center, the Graduate Center, the Isabel Patterson Child Development Center, the Psychology building, the Studio Theatre, the Student Services Administration Building, and the Library West building with its six floors and 534,072 volumes.

The eighties represented an era of limited expansion but of the improvement in program quality. Residential students, in campus dormitories, increased to an all-time high of 1,850. This decade also saw the acquisition of the radio station KLON, the opening of the Loraine Huntington Miller and Charles Elmer Huntington International Houses, the University Music Center, the Engineering building, and the Earl Burns Miller Japanese Garden. In 1988, the Library celebrated the acquisition of its 1,000,000th volume. At the same time the women's basketball team rose to national prominence.

As the University moves into the 1990s, under the leadership of Curtis L. McCray, its international influence will continue as the partners in the Pacific Rim increase in world-wide importance.

Over the last forty-two years, academic excellence has been achieved through a distinguished faculty, a hard-working staff, and an effective and visionary administration. The faculty's primary responsibility is to create, through effective teaching, a learning environment where a student can grow and develop. In addition, the University takes pride in its service to students. Over 300 clubs and organizations, many of national stature, provide our students with a variety of co-curricular experiences.

CSULB offers theatre, dance, films, lectures, concerts, athletics, and special events which include the International Festival, the Blues Festival, Kaleidoscope, Cinco de Mayo, Black History Week. These events are open to the local community as well as the students, faculty, and staff of the University.

We are pleased that you are here today. The students have entered the University to learn and now, with an earned degree and your support, they will go forward to serve our diverse society. Welcome to the forty-second annual Commencement Ceremonies.

The Academic Dress

When the graduates appear in gown and mortarboard, they bear witness to an identification with scholars and scholarship which extends to us from the Middle Ages. Universities began to appear in Europe in the twelfth century, followed within a hundred years by systems of academic degrees. Almost simultaneously, the scholar began to develop a distinctive dress based on modifications of the costume of every day. The hood was, in truth, the head cover of both the medieval scholar and the ecclesiast. The biting wind of the Po and the Seine Valleys was diminished by the robe or cloak.

What we see in American academic procession of today, then, comes to us from an 800-year process of evolution. In 1895, this country reinforced its developing talent for standardization and mass production by considering a uniform academic costume code for its universities. Meanwhile, European universities maintained their right to variety. The vivid diversity of regalia for European degree holders brings to the American commencement crowd such visual pleasures as sable berets and cardinal robes.

The cap, the hood, and the robe are the usual components of the academic costume. The mortarboard as we see it now comes from joining the elements of a square bonnet and a skull cap. As early as 1600, scholars at Oxford University began introducing light boards to hold out the corners of the bonnet. The tassel may be the color of the faculty or major field of learning in which the degree is conferred or it may be black. At California State University, Long Beach, the tassel color worn by the bachelor's degree candidates denotes their school:

Applied Applied Arts and Sciences
Business Administration
Education
Engineering
Fine Arts
Humanities
Natural Sciences
Social and Behavioral Sciences
Public Policy and Administration

Green
Drab Beige
Light Blue
Orange
Brown
White
Gold
Dark Blue
Peacock Blue

Master's degree candidates wear tassels colored Forty-Niner Gold. Faculty with the doctoral degree have golden tassels.

Gown designs represent the three levels of academic degrees. Except in rare cases, the gown is black. The bachelor's robe features full and long pointed sleeves with little adornment. The master's gown has been modified in recent years. The characteristic knee length sleeves formerly had a slit to allow the arm to emerge at the elbow. Whereas the gowns were similar, the variety of emerging arms and sleeves was the despair of the mind that loved uniformity. Now the slit is lower so that only the hand emerges.

The star of the act is the doctoral gown. Faced with velvet panels from neck to ankle, fitted with bell-shaped sleeves crossed by three velvet bars, the robe is full and long. The color of the panels and bars can designate the faculty which awarded the doctoral degree. Also seen on occasion are the light blue of education (the Ed.D.); the white of the arts and letters; the orange of engineering; the lemon yellow of library sciences; the golden yellow of science; the pink of music; the purple of law; the green of medicine; and the scarlet of theology.

A few American universities are breaking away from the Code of 1895 in their doctoral robes. The Harvard graduate at the doctoral level can wear a gown of full crimson with embroidered crow's feet on the lapels. Yale, of course, has countered with its robe of Yale blue (no crow's feet). Columbia recently has authorized slate gray and Stanford is resplendent in cardinal. Vivid color is allowed to break through in the hood. Hoods are in three sizes with the smallest (for the bachelor's degree) being rarely seen. The lining of the hood is taken from the school colors of the institution awarding the degree. The master's hood of California State University, Long Beach is lined in gold with a brown chevron; no bachelor's hood is used.

Unfortunately, two universities with the same school colors may design hoods which are similar or identical in appearance. An example is Stanford and Wisconsin. Gold, perhaps by sheer coincidence, appears very frequently as a color on the silk lining of the hood. Following are some hood colors that may be identified in our academic procession.

Chicago	Maroon
Columbia	Light blue, white chevron
Florida State	Garnet, gold chevron
Harvard	Crimson
Illinois	Navy blue, two orange chevrons
Indiana	Crimson, green chevron
Maryland	Black, one gold chevron
Massachusetts Institute of Technology	Red, gray chevron
Michigan	Maize, azure blue chevron
Michigan State	Hunter green, white chevron
Minnesota	Old gold, maroon chevron
Northwestern	Purple, gold chevron
New York University	Violet
Ohio State	Scarlet, gray chevron
Pennsylvania	Red, blue chevron
Penn State	Dark blue, white chevron
Pittsburgh	Navy blue, gold chevron
Purdue	Black, two old gold chevrons
Stanford	Cardinal
Texas	Orange, white chevron
University of California	Gold, Yale blue chevron
University of Southern California	Gold, cardinal chevron
Washington	Purple, gold chevron
Wisconsin	Cardinal

Grand Symphonic Carillon

During Commencement week, visitors may hear the carillon. The bells were installed in 1972 to sound from atop the Humanities Building and the Carlson Memorial Tower.

The Carlson Memorial Tower, located near the center of the campus, is the last of the outstanding works of sculpture originally designed for this campus as part of the International Sculpture Symposium of 1965. The tower is the final work of French sculptor Andre Bloc who died shortly after completing this project.

In 1982, at the completion of the University Music Center, more than six miles of cable and additional sound sources (Student Services Administration Building and the Music Center) increased the ambiance of bell sound. The 225 bells are played from a two keyboard console with twelve notes playable by the feet. Five sets of bells, Flemish, English, Major, Harp, and Celesta, are available to the carillonneur for variety of sound. In 1987, the digital playing mechanism matched the state of the art: bell peals, tolls, the Angelus, and strikes for the hours (which operate automatically).

The funds to complete the tower were donated by Miss Louise Carlson who was born in Sweden and adopted Long Beach as her permanent home. In order to express her affection and be remembered for her devotion to youth and to education, she chose California State University, Long Beach to establish an endowment which continues to fund artistic events on campus each year.

International Flags

In recognition of the international nature of higher education today--as evidenced at California State University, Long Beach by a student body consisting of individuals from 117 different foreign countries and by a curriculum designed to produce graduates who are interculturally sensitive and globally aware--the Central Quadrangle is decorated with an array of international flags. These flags are symbolic of the international perspective of the University and represent the countries, societies, and cultures most often represented in the student body. Although the University's flag collection is not complete, and all nations are not yet represented, we will be adding flags every year until our collection is complete and fully representative.

Date of Graduation

Students become eligible for graduation at the conclusion of the Fall Semester, the Spring Semester, or Summer Sessions. Candidates from the term ending Summer 1990 and December 1990 have completed requirements for their degrees. May 1991 candidates listed in the program will be awarded their degrees contingent on successful completion of requirements during the Spring Semester.

This program lists the names of graduates and eligible candidates as provided by the Office of Enrollment Services at the time of publication. Other candidates may have become eligible for graduation since that time. Presence or absence of the name in this program does not of itself testify to completion or non-completion of degree requirements for graduation.

Thesis Titles

Thesis titles for master's degree candidates are listed in this program for some majors. If no title appears following the candidate's name, either the student elected to take the comprehensive examination or the thesis title was not available at the time of printing the program.

Certificate Programs

In addition to receiving the baccalaureate degree, some candidates have fulfilled the requirements for a certificate program. The certificates and candidates are listed in this program.

Graduation with Honors

Honors are computed by the Office of Enrollment Services using information available through Fall 1990 on all college work. For August and December graduates, these honor's designations are confirmed.

Those students with a cumulative grade point average of 3.5-3.79 will graduate Cum Laude; students with 3.80-3.94 will graduate Magna Cum Laude; and students with 3.95-4.0 will graduate Summa Cum Laude. Within the text of this program, honors are designated in the following way:

†Cum Laude

††Magna Cum Laude

†††Summa Cum Laude

In addition to honors for bachelor's degree candidates, the Graduate Dean's List of University Scholars and Artists recognizes outstanding students at the graduate level. Nominees are selected annually by the various schools. The number considered does not exceed one percent of a given school's graduates. Individual departments might also choose to honor graduating master's degree candidates. Departmental graduate student honors are reserved throughout the University to two students (or a maximum of ten percent) from a department.

UNIVERSITY PROGRAMS

Keith I. Polakoff, *Associate Vice President, Academic Affairs
and Administrator of University Programs*

The University awards degrees in two multi-disciplinary programs, the undergraduate Liberal Studies Program and the graduate and undergraduate Special Major Program. Students receiving degrees do so at the commencement ceremonies appropriate to the disciplines involved in their academic programs. There are no separate ceremonies for University Programs.

The Special Major Program provides opportunities for students to work with the faculty to organize special interdisciplinary programs of study especially designed to cover bodies of knowledge not served by the regular academic departments.

The baccalaureate program in Liberal Studies provides each student with an extensive study in core subjects in the liberal arts and sciences. Each student must also complete a concentration in a specific discipline.

The University Scholars (Honors) Program is also a part of University Programs and is designed to provide highly motivated students an exceptional educational opportunity to challenge and expand their intellectual capacities and creative potentials.

The School of Applied Arts and Sciences

The School of Applied Arts and Sciences came into existence in the fall of 1967 when the former Divisions of Health, Physical Education and Recreation and Applied Arts and Sciences combined with the reorganization of the University. The School is presently composed of nine departments, four programs, three centers, and one institute.

The present faculty allocation is 158 positions, which ranks the School of Applied Arts and Sciences third in size among the eight Schools of the University. The departments and programs represent perhaps the greatest diversity of function of any of the Schools.

The doctorate is held by 86 of the 117 full-time tenure-track faculty in the School.

Approximately 3,700 students are candidates for the baccalaureate degree while 550 are pursuing the master's. In each of the past four academic years approximately 800 students have been awarded the B.A. or B.S. degree. During the same period an average of 120 students per year have received master's degrees.

The School of Applied Arts and Sciences has been fortunate in being able to recruit and retain faculty of the highest caliber. The department chairmen have provided exceptional leadership and enjoy the confidence and support of their faculties.

The Commencement Speaker

James P. Miscoll

James P. Miscoll is the Vice Chairman and Executive Officer-Southern California of the Bank of America. As Executive Officer since 1985, James P. Miscoll is responsible for Bank of America's overall operations and corporate activities throughout Southern California.

Mr. Miscoll serves as a member of the Bank's Managing Committee and Social Policy Committee. Also, he is Chairman of the Board of the BankAmerica Foundation.

Having joined the Bank in San Francisco in 1962, he has had many Senior Management assignments for the Bank in Europe, New York City, Asia, and California.

Mr. Miscoll is a graduate of Marquette University, University of Wisconsin, Northwestern University Advanced Management Program, and Harvard University Advanced Management Program. Prior to joining the Bank, he served as an officer in the United States Navy for five years. He is married and has three children.

The School of Business Administration

The School of Business Administration has over 7,000 graduate and undergraduate majors in its five departments: Accountancy; Finance, Real Estate, and Law; Management/Human Resources Management; Information Systems; and Marketing. The faculty are known for their teaching skills, and many are experts in their fields. Many are active in scholarly research, business consulting, and community activities.

Student organizations in the School of Business are extremely active and serve as a way for the student to make a meaningful connection with the campus. All of the activities are designed to provide personal and professional development. Typical programs and events offered by the organizations include professional speakers, company tours, career fairs, and social gatherings.

The President

The Graduate School of Education

The Graduate School of Education utilizes the resources of the University and the community in the preparation of teachers and service personnel to serve needs in the elementary and secondary schools. In addition to basic teaching credentials, it offers a wide variety of advanced credential and master's degree programs which lead to careers in specialized fields such as special education, bilingual, early childhood and reading. Additional programs are offered in the areas of administration, library/media, counseling, and school psychology. Credential programs are also offered, through other schools, in the areas of clinical rehabilitation for speech pathology service, adaptive physical education for the handicapped, and adult/vocational education. Beyond service in the public schools, the diverse programs offered by the Graduate School of Education serve as a unique background for a multitude of careers in the private and industrial sectors.

The International Peace Choir

The Graduate School of Education ceremony will feature the International Peace Choir. The Choir was founded in Long Beach, California to promote world peace with its theme song: "Let There Be Peace On Earth and Let It Begin With Me." The sixty-five children in the Choir, whose ages range from 3 to 17 years, represent their own heritage and perform in authentic costumes. The Choir takes its audience on a musical tour around the world. In addition to local performances, the Choir performs nationally and worldwide.

The School of Engineering

The School of Engineering provides baccalaureate and graduate degree programs in engineering, technology, and computer science. Undergraduate programs allow students to specialize in biomedical, chemical, civil, computer, electrical, industrial-management, and mechanical engineering, and in construction management, electronics, quality assurance, and manufacturing technology. In addition, master of science degrees are offered in civil, electrical, and mechanical engineering, and computer science and engineering. A joint Ph.D. program with Claremont Graduate School is in progress with 21 students enrolled in the Program.

The primary mission of the School of Engineering is to develop and conduct undergraduate and graduate degree programs, certificate programs, and continuing education programs to help satisfy international, national, state, and local needs for highly qualified practicing engineers, technologists, and computer scientists. Secondary missions, which support the first, include the conduct of scholarly and creative activities, including research, and service to the university, the community, and the nation. As a leading School of Engineering in Southern California, the School is committed to maintaining its high standards of excellence, further enhancing the quality of its academic programs, and developing new programs to meet pressing societal needs.

The School of Engineering provides an affordable high-quality education for students who intend to seek industrial employment, practice professionally, or pursue advanced degrees in their respective fields. Southern California industries seek out graduates of our School because they *hit the ground running* and repeatedly demonstrate the skills and motivation desired by industries in our area. For example, CSULB provides more graduates to Rockwell International, McDonnell Douglas, Northrop Aviation, and Ford Aerospace than any other university in the nation, and is the second largest provider of graduates to Hughes Aerospace and TRW. The School of Engineering has 114 full-time faculty and 115 part-time faculty and a student enrollment of approximately 890 graduate students (Master's and Doctoral) and 4,109 undergraduate students.

Faculty Marshals

Grand Marshal: Walter Edelman, Jr., *Professor, Mechanical Engineering, Ph.D., Oregon State University*

Anastassios Chassiakos, *Associate Professor, Engineering and Industrial Technology, Ph.D., University of Southern California, Los Angeles*

Michael Clevenger, *Lecturer, Engineering and Industrial Technology, M.B.A., University of California, Los Angeles*

Peter Cowan, *Professor, Civil Engineering, Ph.D., Utah State University, Logan*

Sandra J. Cynar, *Associate Professor, Computer Engineering and Computer Science, Ph.D., University of California, Irvine*

Wayne E. Dick, *Associate Professor, Computer Engineering and Computer Science, Ph.D., University of California, San Diego*

Ramin Esfandiari, *Lecturer, Mechanical Engineering, Ph.D., University of California, Santa Barbara*

C. Barclay Gilpin, *Professor, Mechanical Engineering, Ph.D., Carnegie-Mellon University*

Karl-Heinrich Grote, *Associate Professor, Mechanical Engineering, Technical University of Berlin, Dr.-Ing., Berlin, West Germany*

Min-Ten Jahn, *Professor, Mechanical Engineering, Ph.D., State University of New York*

Kenneth James, *Associate Professor, Electrical Engineering, Ph.D., University of California, Irvine*

Emanuel Jarasunas, *Professor, Engineering and Industrial Technology, Ed.D., Nova University, Fort Lauderdale, Florida*

Jeyanthi Kernik, *Lecturer, Mechanical Engineering, M.S., University of Minnesota*

- Ernest Mijares, *Professor, Mechanical Engineering, M.S., University of Southern California*
- Ortwin Ohtmer, *Professor, Mechanical Engineering, D.Eng., Technical University of Braunschweig, West Germany*
- Leonardo Perez y Perez, *Professor, Mechanical Engineering, Ph.D., University of California, Berkeley*
- Tom L. Robinson, *Assistant Professor, Engineering and Industrial Technology, M.B.A., Pepperdine University*
- Morton D. Schwartz, *Professor, Computer Science and Engineering, Ph.D., University of California, Los Angeles*
- Robert Teng, *Associate Professor, Electrical Engineering, Ph.D., Purdue University*
- Jalal Torabzadeh, *Associate Professor, Mechanical Engineering, Ph.D., University of Southern California*
- Bruce Torby, *Professor, Mechanical Engineering, Ph.D., University of Southern California*
- Dennis J. Volper, *Associate Professor, Computer Science and Engineering, Ph.D., University of California, San Diego*
- Hung Vu, *Assistant Professor, Mechanical Engineering, Ph.D., University of Michigan*
- Ray Wang, *Associate Professor, Engineering and Industrial Technology, Ph.D., University of Tennessee, Knoxville*
- William Welch, *Associate Professor, Engineering and Industrial Technology, M.A., California State*

School of Fine Arts

The School of Fine Arts provides opportunities for studying the full range of fine arts disciplines at the graduate and undergraduate levels with departments of Art, Dance, Design, Music and Theatre Arts. Degree options range from the professionally oriented bachelor of music, bachelor of science in industrial design, and bachelor and master of fine arts to the broader approach in such areas as general art, art history, dance, music, and theatre arts. There are also special certificates in biomedical illustration, music therapy, and museum studies. All of the programs of the School of Fine Arts are fully accredited by national accrediting associations.

In addition to classes and studio work, the School offers more than 175 art exhibitions, theatre productions, dance concerts, and music performances each year which are open to the general public. These events showcase guest artists as well as CSULB faculty and students and have become an important cultural resource for Long Beach and neighboring areas of Orange County.

The School of Fine Arts has 98 full-time faculty and 100 part-time faculty with 150 graduates and 2000 undergraduates.

The School of Fine Arts Commencement ceremony will feature a selection by the CSULB Brass Choir. This brass choir is a selected group of brass and percussionists that rehearse on a regular weekly basis. They perform concerts on campus and in local area high schools. The processional and recessional music will be performed by the brass choir.

The School of Humanities

The origin of the School of Humanities dates to 1967 with the name School of Letters and Science. Dr. Hiden T. Cox, Professor of Biology, served as the first dean. On July 1, 1975 the School was reorganized as the School of Letters headed by Professor of History Dr. Richard H. Wilde. The School was once again restructured to its present form as the School of Humanities on July 1, 1977. Professor of Communicative Disorders, Dr. Virginia G. Warren, serves as acting dean.

The School of Humanities is committed to the discovery, evaluation, and transmission of fundamental knowledge. Humanities courses are designed to develop the essential skills of educated people. These important skills include the abilities to think, read, write, speak, listen, and solve problems. Programs are offered in the basic disciplines of language, literature, mathematics, and philosophy as well as in the professional fields of communication, journalism, and radio-television-film, all of which equip students with the ability to think clearly, critically, and analytically; to clearly organize thoughts and facts, and to present them in a cogent manner. These disciplines are apparent in the departments and programs of the School of Humanities which include: American Language, Communicative Disorders, Comparative Literature/Classics, English, French/Italian, German/Russian, Journalism, Linguistics, Mathematics, Philosophy, Radio/Television/Film, Religious Studies, Spanish, and Speech Communication.

Graduates in the Humanities often continue their education in graduate or professional schools. Others use their majors as preparation for careers in administration, business, communications, government/public service, industry, journalism, law, and teaching.

The School of Natural Sciences

The School of Natural Sciences was formed on July 1, 1975 in a reorganization of the University. This action was taken in order to make the University more responsive to the educational needs of the students we serve and to build upon the combined strengths of the departments of Anatomy and Physiology, Biology, Chemistry and Biochemistry, Geological Sciences, Microbiology, and Physics and Astronomy. The formation of this School allows the science departments to grow together in a much more cohesive fashion than would be possible in a larger administrative setting.

The faculty and staff of the School of Natural Sciences are dedicated to providing the highest possible educational opportunities at both the undergraduate and graduate levels. The students from this School are well-prepared to enter graduate and professional schools or to assume positions in industrial or governmental laboratories. A special effort is made to provide a very sound fundamental level of education in one of the natural sciences as well as to instill in the students an ability to think and act in a scientific way.

This School is dedicated to the concept that a university has a special responsibility toward academic excellence and the advancement of knowledge. The faculty and staff are committed to the continued building of the reputation of this university to provide an outstanding educational experience for all students.

The School of Social and Behavioral Sciences

The School of Social and Behavioral Sciences is devoted to the study of individual and group behavior in a variety of settings and from different perspectives--cultural, economic, environmental, historical, political, psychological, and sociological. Our faculty have created strong degree programs which have prepared our graduates to function effectively as citizens and as professionals in many occupations. Students have frequently played an active role in the extensive scholarly work of our faculty, which has been published in journals around the world.

Although the majority of our students come from California, they have had classmates from all over the United States and dozens of foreign countries. This has provided them with the opportunity to discuss their studies with those who bring a different set of experiences to their education.

All of this means that our graduating seniors know something of the diversity and complexity of the world which they now enter. We believe that they are ready to put their education to work to enrich that world.

Graduate Center for Public Policy and Administration

The Graduate Center for Public Policy and Administration was established in 1973 as the University's graduate program in public affairs. The Graduate Center represents a University commitment to the education of students for positions of leadership in government. The focus of the Graduate Center's programs is contemporary public affairs. Public policy and administration are studied in terms of problem solving. Administrative and policy decisions are analyzed from the manager's perspective.

The Graduate Center offers an innovative professional graduate program of studies leading to the degree of Master of Public Administration. An option in Urban Affairs is also offered within the Master of Public Administration degree. In addition, graduate certificate programs are available in Urban Executive Management, Public Sector Analytical and Administrative Skills, Employer-Employee Relations and Personnel Management, Public Sector Financial Management, Transportation Policy and Planning, and Law Officer Administration.

Honor Societies

National organizations, often with Greek letter designations, are active on campus in honoring outstanding graduates. Six societies which may elect students from all academic areas are:

GOLDEN KEY A national honor society for juniors and seniors who have completed at least 30 units at CSULB and who have maintained a GPA of 3.4 or better.

MORTAR BOARD A national honor society for senior students who have achieved academic excellence and have made personal contributions to campus life through service and research—a 3.0 GPA is required.

PHI BETA DELTA A national honor society for international scholars which recognizes professional and intellectual achievement in the field of International Education. Membership includes students, faculty, and staff.

PHI BETA KAPPA America's first honor society recognizing scholarly achievement in the liberal arts and sciences as well as the cultural interests and good character of graduates elected to membership.

PHI DELTA GAMMA (Scholarship) National honor society for graduate students. Fosters academic achievement and professional preparation.

PHI KAPPA PHI A national honor society for men and women which recognizes superior scholarship in all academic areas—membership includes both students and faculty.

Other societies may limit membership to particular academic areas. Among these organizations at California State University, Long Beach are the following:

ALPHA EPSILON RHO (Broadcasting) National honor society which promotes the field of broadcasting while recognizing high achievement by students in broadcasting. Students must be at least sophomores who maintain a 3.0 GPA in broadcasting.

BETA ALPHA PSI (Accounting) National scholastic fraternity to give recognition to excellence in the field of accounting.

BETA GAMMA SIGMA (Business Administration) National honorary business society to recognize superior academic performance.

EPSILON PI TAU (Industrial Education) International honor society for industrial education. The organization promotes service, research, leadership, and technical excellence.

ETA KAPPA NU (Electrical Engineering) National honor society furthering area interests and promoting scholarship. Seniors must be in top 25 percent of class and juniors in top 15 percent.

KAPPA DELTA PI (Education) National honor society for teachers, encourages high professional intellectual, and personal standards. Recognizes outstanding contributions to education.

KAPPA TAU ALPHA (Journalism) National Honor Society for juniors and seniors recognizing outstanding scholarship in the field.

OMICRON DELTA EPSILON (Economics) National honor society with the objectives of recognizing student achievement in economics and establishing closer ties between students and faculty.

OMICRON NU (Home Economics) National honor society, recognizing superior scholarship and promoting leadership and research in the field of home economics.

OMICRON TAU THETA (Vocational Education) National honorary professional graduate society in vocational education. Open by invitation to graduate students in vocational education. Requires 3.0 GPA and faculty recommendation.

PI ALPHA ALPHA (Public Administration) National society to encourage and reward scholarship among students and practitioners in public administration.

PI KAPPA LAMBDA (Music) A scholastic honor society for musicians to provide an organization dedicated to the furtherance of music in education and education in music in institutions of higher learning. Pi Kappa Lambda recognizes those juniors, seniors, and graduate students who have demonstrated the highest standards of achievement in their academic program both scholastically and musically.

PI LAMBDA THETA (Education) National organization for undergraduate and graduate students. Purpose is to maintain high standards of scholarship and preparation for teaching.

PI MU EPSILON (Mathematics) National honor society recognizing distinction in mathematics.

PI SIGMA ALPHA (Political Science) National organization for graduates and undergraduates in the field of political science. Purpose is to create an awareness for students in recent developments in the field of political science.

PI TAU SIGMA (Mechanical Engineering) National honor society encouraging and recognizing outstanding scholastic achievement.

SIGMA ALPHA IOTA (Music) National organization for women in music. Aims to further the development of music in America through performance, study, and participation in both campus and community projects.

SIGMA TAU DELTA (English) National honor society conferring distinction for high achievement in the study of English language and literature.

SIGMA XI (Science) National honor society for scientists. Goals of the society are: to advance scientific research, to encourage companionship among all scientists, and to assist the wider understanding of science.

TAU BETA PI (Engineering) National honor society recognizing engineering students for academic achievement and participation in activities. Members are elected from top 20 percent of the senior and top 12 percent of the junior class.

PHI ALPHA THETA (History) National honor society for graduates and undergraduates which serves to promote an interest in history and a sense of community among history students. Purpose is to promote scholarly research.

PHI DELTA KAPPA (Education) National organization which promotes service, research, and leadership in education. Members include both students and faculty.

PHI EPSILON KAPPA (Physical Education) National society for recognition in sports and physical education. 3.0 GPA requirement and faculty recommendation.

PHI MU ALPHA Sinfonia (Music) National organization for students in music. Promotes music in America, especially contemporary American music.

PHI SIGMA TAU (Philosophy) National honor society for students with a strong undergraduate concentration in philosophy.

CHI SIGMA IOTA (Counseling) An International honor society of counseling professionals and professionals-in-training, (students with a GPA of 3.5 or better), dedicated to excellence in scholarship, research, and clinical practice.

CHI EPSILON (Civil Engineering) National honor society open to civil engineering majors with a 2.9 GPA.

PSI CHI (Psychology) National psychology honor society recognizing the achievement of outstanding graduate and undergraduate students. Seeks to encourage psychological research and teaching.

Rho of California Phi Beta Kappa

The Rho Chapter of Phi Beta Kappa at California State University, Long Beach, which received its charter in 1976, proudly presents the graduates of the class of 1991 who have been elected to membership in Phi Beta Kappa, America's first and most renowned honorary society. It is from the initials of the Greek motto "*philosophia biou kubernetos*" ("love of knowledge, the helmsman of life"), adopted in 1776 at the College of William and Mary, that the cognomen *ΦΒΚ* arises.

Aside from superior grades, the selected Members in Course must have manifested mature judgment, a well-developed critical faculty, and a thorough understanding of the world—natural, social, and aesthetic. Each student, whatever be the major, has unquestionably demonstrated the following qualities in her/his undergraduate career:

1. Broad cultural interests, scholarly achievement, and good character, as evidenced by excellent performance in serious coursework, well distributed over the liberal arts and sciences.
2. A knowledge of the basic logical and communicative skills of mathematics and foreign languages.
3. Dedication to serious, critical thought and to the life of the mind.

Currently only 1-2 percent of those persons earning bachelor's degrees and meeting the breadth requirement of courses in the liberal arts and sciences attain the exacting qualifications required for this prestigious election which places their names on a roster that includes those of John Marshall, Ralph Waldo Emerson, Oliver Wendell Holmes, John D. Rockefeller, Jr., John Hope Franklin, Edward Levi, and Hannah Holborn Gray.

Rho of California, California State University, Long Beach and the National Association of Phi Beta Kappa are honored, and will continue to be honored in the future, by the distinguished achievements of those who join us this spring.

Points of Interest on Campus

Graduates and guests are encouraged to visit several points of interest while here on campus for Commencement ceremonies.

University Art Museum

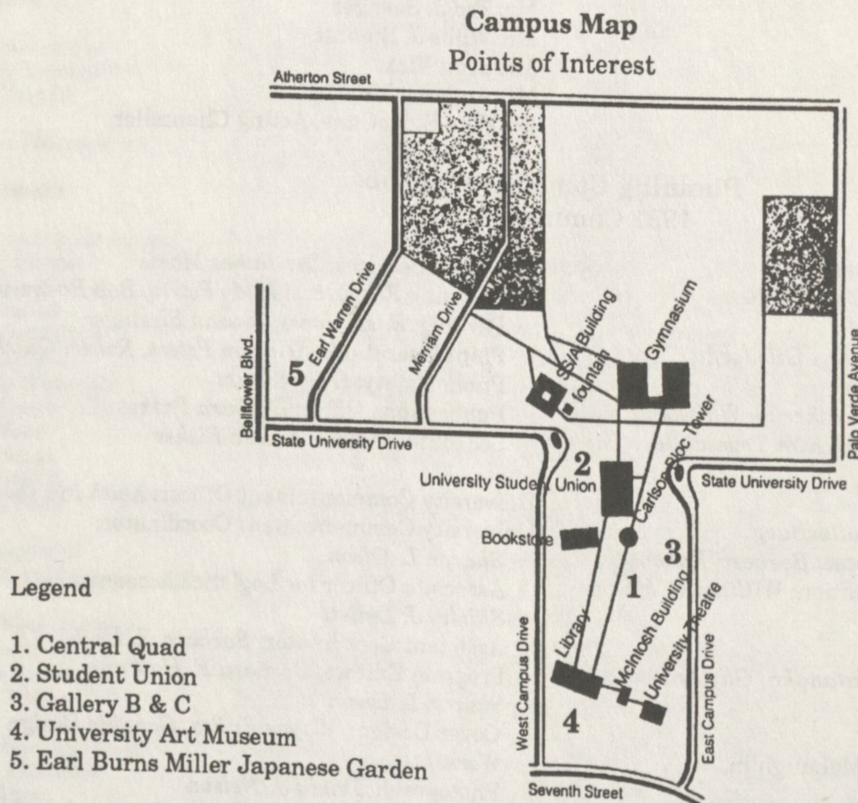

Graduates and guests are invited to visit the University Art Museum during their stay on campus. On exhibit will be the Annual Student Art Exhibition, featuring works by students from the Department of Art. The museum is located on the fifth floor of the University Library and will be open from 11:00 a.m. to 5:00 p.m.

The Earl Burns Miller Japanese Garden

The beautiful Earn Burns Miller Japanese Garden will be open during Commencement to graduates, family, and friends. The Garden, graced with a curving walkway, a lake, a tea house, and newly-planted flora, is located adjacent to the University Residence Halls on the west side of campus. The Garden has been designed to be accessible to handicapped persons. You, your friends and family are cordially invited to share the beauty, simplicity, harmony, and peace expressed in this lovely garden.

Design Department Senior Show

Students graduating from the Design Department will have on display in Galleries B and C their senior projects. Take time to visit this interesting exhibit which is located east of the Central Quad. The show will be open during Commencement ceremonies.

The background of the page features a dark, textured surface with stylized, light-colored palm fronds in the four corners, creating a symmetrical, Art Deco-inspired design. The fronds are composed of sharp, triangular shapes radiating from the corners.
