Very special thanks to Harriet and Dwight for all of their patience and support. Without them this yearbook would not have been possible. They gave me the inspiration I needed to make it work.

To the 1987 Hawsepipe Staff, my deepest thanks. You were patient and dedicated, and got the work done (usually on time). Now we can look to the future and the 1988 Hawsepipe.

## California Maritime Academy

Volume 55

## The Orient Express

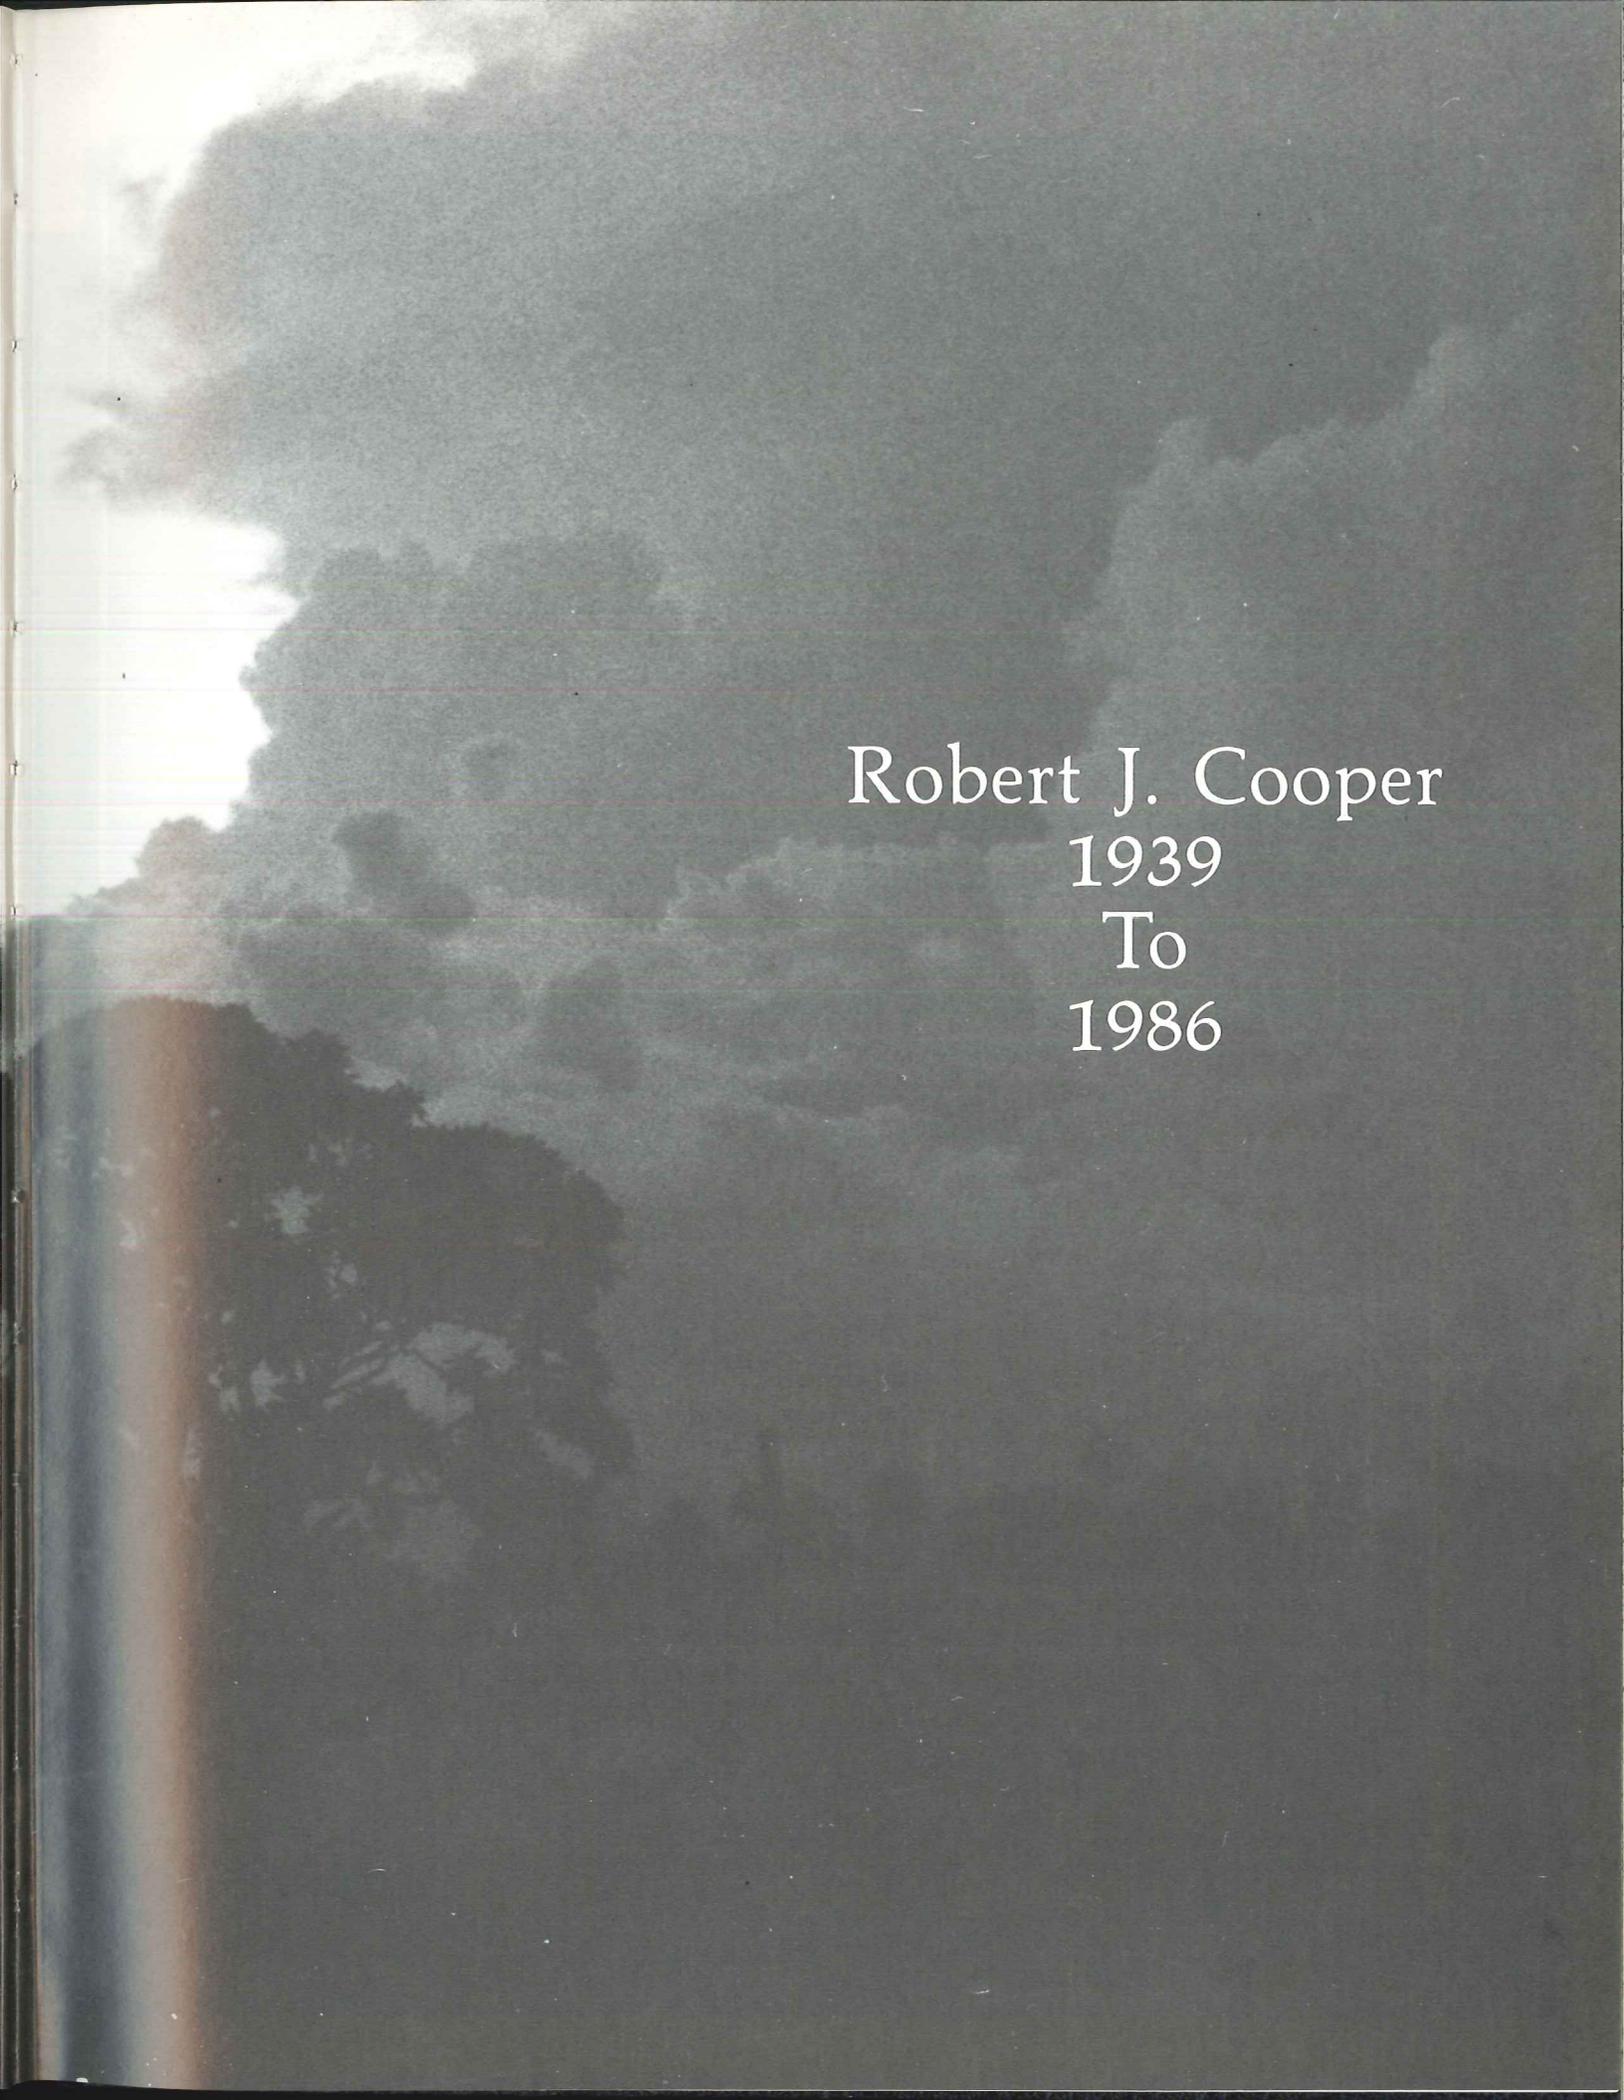

Not everyone has the ability to fill a variety of roles in their daily routine. Only a few individuals quickly adapt to the demanding and diverse tasks of counsellor, coach, and teacher. Bob Cooper grew into each of these roles in his short five years at the Academy.

Bob influenced those midshipmen who worked closely with him. They learned to be meticulous in planning, relentless in follow-up, and exact in instructions to their subordinates. He always placed the welfare of the midshipmen before all else.

As a college athlete, Bob developed a lasting love and respect for sports and the role it can play in an individual's development. While he was very active as a coach in youth sports in Sacramento, Bob still took time to help the Academy's Handball Club.

Bob's classroom teaching was exceptional. His role as a teacher went beyond mere lecture and discussion. Bob taught by example — loyalty to the Academy; sensitivity to the individual needs of the midshipmen; enthusiasm for work; a professional approach to interpersonal relationships; and love of family and country.

CALIFORNIA MARITIME ACADEMY

OFFICE OF  
THE PRESIDENT

To the Graduating Class of 1987:

As you complete your demanding program at CMA and move into the next phase of your life, the faculty and staff want to express our wish for your every success.

You have every right to be proud of your accomplishments over the past several years and particularly your contributions to the Academy. The class reputation which you leave behind and which precedes you into the industry is an enviable one and speaks well of each and every one of you.

I am confident that you are well prepared to meet the challenges of tomorrow both within and outside of the maritime industry. You have already demonstrated a high degree of responsibility, leadership, resourcefulness, and a willingness to work hard. I have high expectations for the members of the Class of 1987.

You have had a major impact on the quality of the Academy. We who remain at CMA stand ready to continue to serve you. Our task remains to operate the premier maritime academy in the country and effectively meet the challenges of tomorrow's uncertainties just as you must. We are eager to hear from you, our alumni, about how we can better serve our students. Please stay in touch and continue to give us your advice as you gain experience and new perspectives.

My warmest regards,

J. J. EKELUND  
Rear Admiral, USMS

## WELCOME . . .

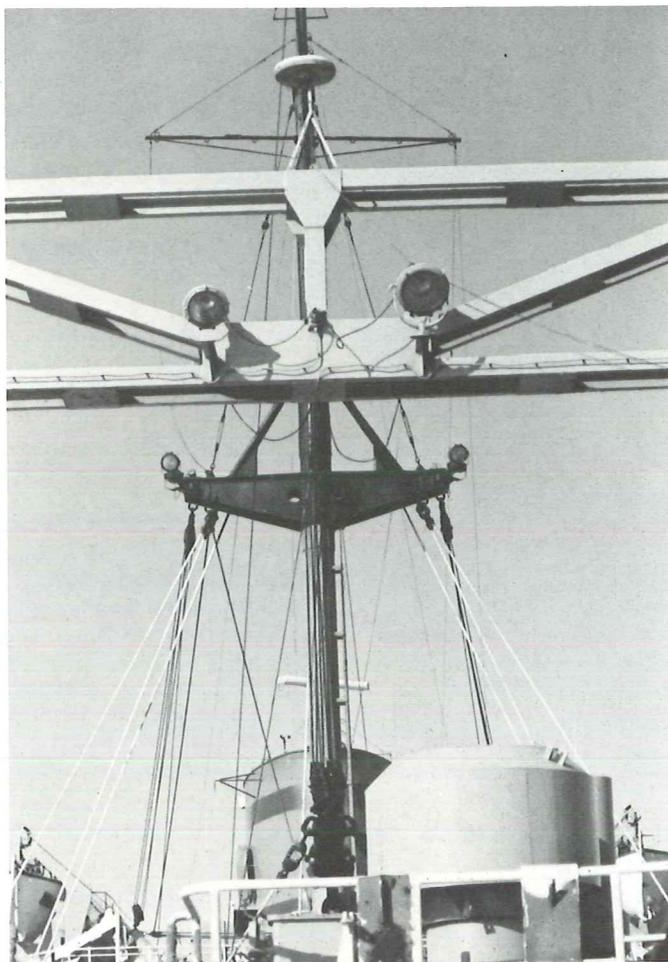

. . . to the California Maritime Academy. Our campus is located at Morrow Cove in Vallejo, California. The future of the American Merchant Marine is here on our campus.

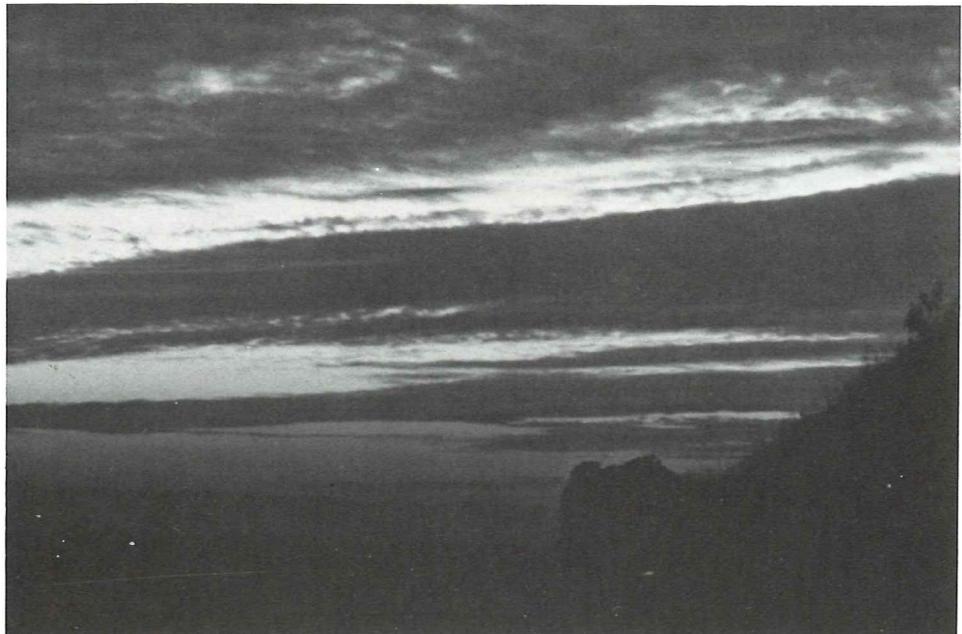

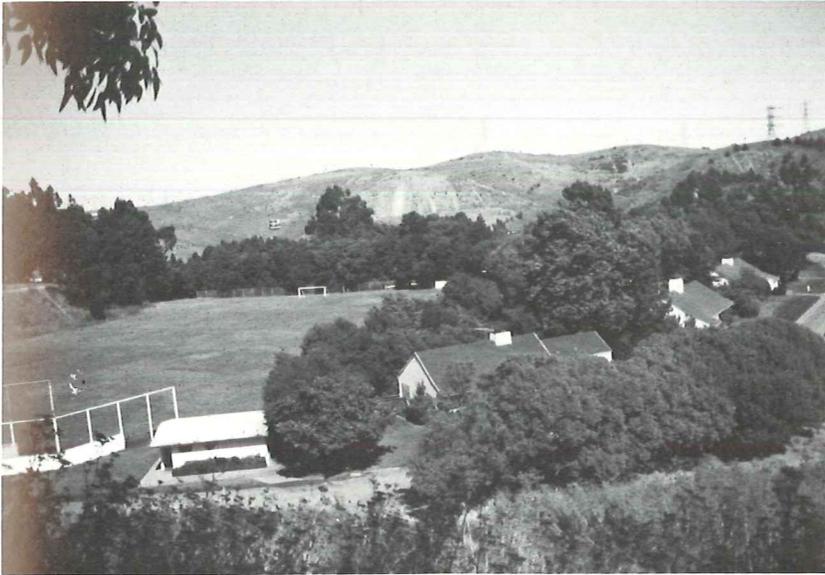

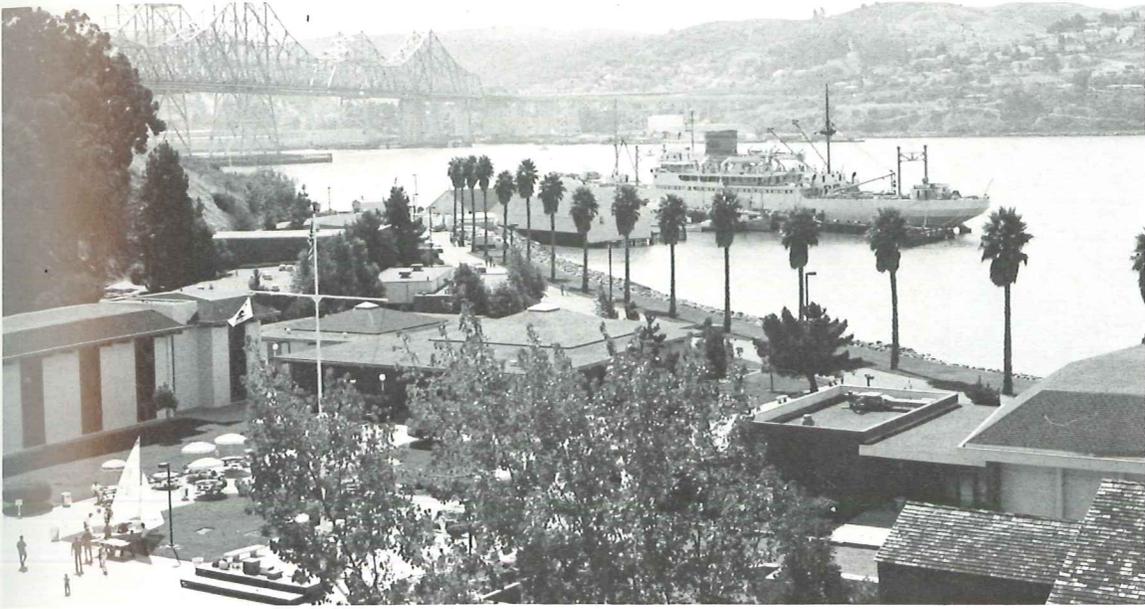

The Academy Training Ship, the Golden Bear, is a floating laboratory where our students get hands on training. Three months of the year we go to beautiful ports in Australia, Asia, South America, and the South Pacific Islands.

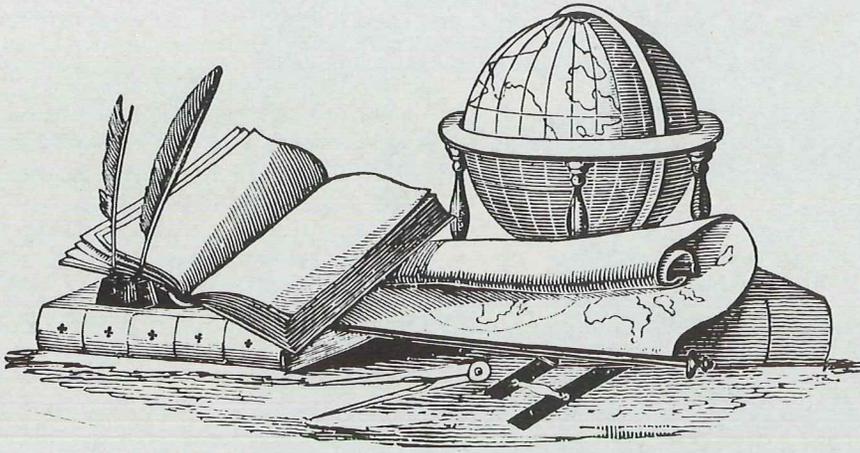

Our Students are trained in everything from Seamanship to Electrical Engineering for Deckies, to Refrigeration and Air Conditioning and Statics and Dynamics for Engineers.

This is the year of the Class of 1987 — outstanding Merchant Marine Officers ready to begin careers in the Maritime Industry. We wish them luck in their endeavors as they move on to bigger and better things.

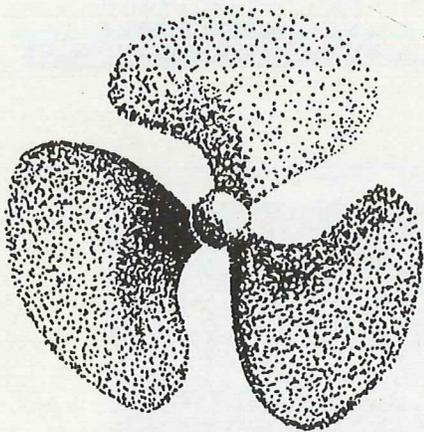

CMA is a beginning — a beginning to a future as a Merchant Marine Officer. And we are the beginnings of a new and better U.S. Merchant Marine.

Thanks for allowing me to survive in Hell, CMA and thanks for helping me get out. Getting busted for a beer can found in someone else's garbage, even one you never drank, makes my day. Here's a toast to life in Vallejo!

**Christopher Scott Bower**

*ACCOMPLISHMENTS:*

Drill Team Commander, Computer Club President, Student Council, Who's Who in U.S. Colleges

*PARTING THOUGHTS:*

I want to thank mom and dad for all their help and encouragement throughout these past four years. And I want to thank Virginia for all her help as well. Finally, thanks Steve for giving all you had and then some. It wasn't easy, it wasn't much fun, but it's over and this time the bastards didn't get us down for once.

*ACCOMPLISHMENTS:*

Survived four years and 3 coaches on the CMA crew team; Captain Video cruise, 1987.

*PARTING THOUGHTS:*

I would like to thank the Academy for changing the way I view and live life. I entered the Academy a good-natured, All-American kid, and over the past four years CMA has molded me into the foul-mouthed, alcoholic, right-wing storm trooper I am today. Thanks again.

**Philip A. Church**

*PARTING THOUGHTS:*

I came to CMA four years ago. Once I was here I tried to figure it all out. Now after four years of wondering, I still have not figured it out. But I had a good time trying. Thanks Mom, Dad, and Christine.

*PARTING THOUGHTS:*

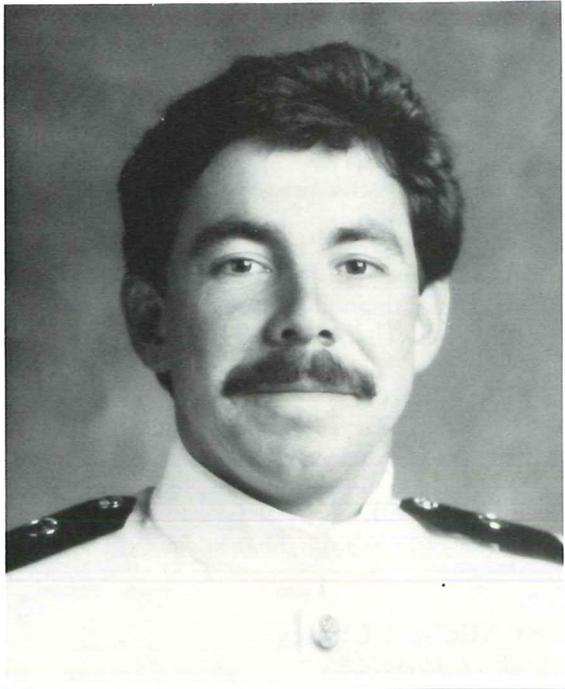

Oriental girls are the most beautiful girls in the world; the 2-D football legacy had better continue or someone will pay. 2-D forever!

**John Sumner Cleveland**

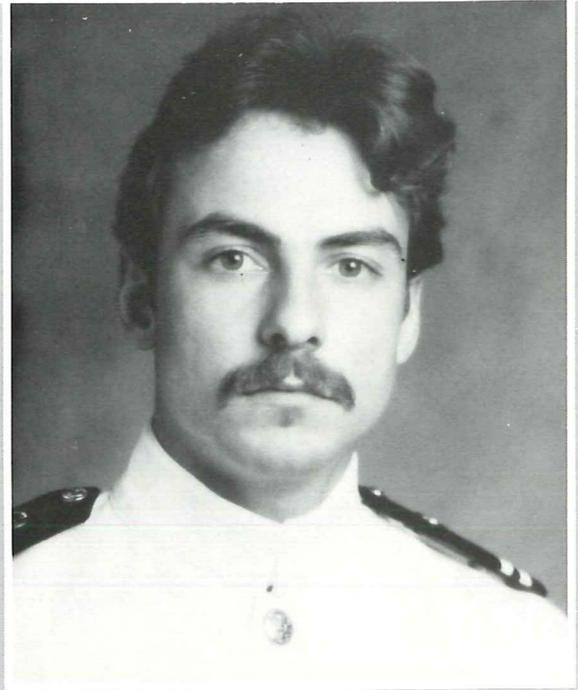

*PARTING THOUGHTS:*

Well we could be children from the way we're acting, we feed ourselves lies then we scream for action. We just breed and lose our nerve and there's bombs going off in every corner of the world. Everybody's restless, everybody's scared. Everybody's looking for something, that just ain't there. Everybody's restless.

# Cruise 1987

SACRAMENTO, CALIFORNIA HONOLULU, HAWAII  
CEBU CITY, PHILIPPINES SINGAPORE  
HONG KONG  
KOBE, JAPAN TOKYO, JAPAN

Across the world's oceans and across numerous latitudes and longitudes did we sail ... together. Searching ... for what we weren't always sure. Often what we found was not what we expected. And what we discovered about each other and about ourselves were things to put in that giant log book of life, and maybe someday, use that memory as a sea story or as a bit of sage advice. Maybe we'll never use it again, but it is a part of each of us. And a part we'll never forget.

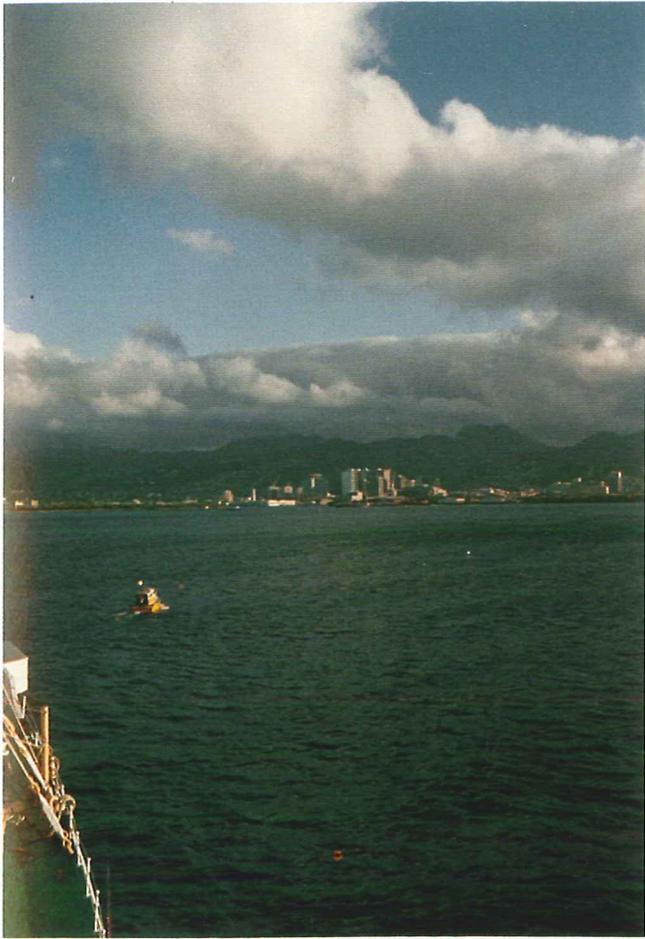

## *HEY, WE'RE GOING THE WRONG WAY*

Cruise 1987 started on a rather strange note . . . we went to Sacramento, going the opposite way, and under the wrong bridge! Here we began the 1987 Agriculture display for the State of California. It was the beginning of a great experience for us all.

From Sacramento we travelled to the Far East after a short stop in Honolulu. It was a cruise of new discoveries, which for some included sushi and sake . . . oh, yes, the sake . . .

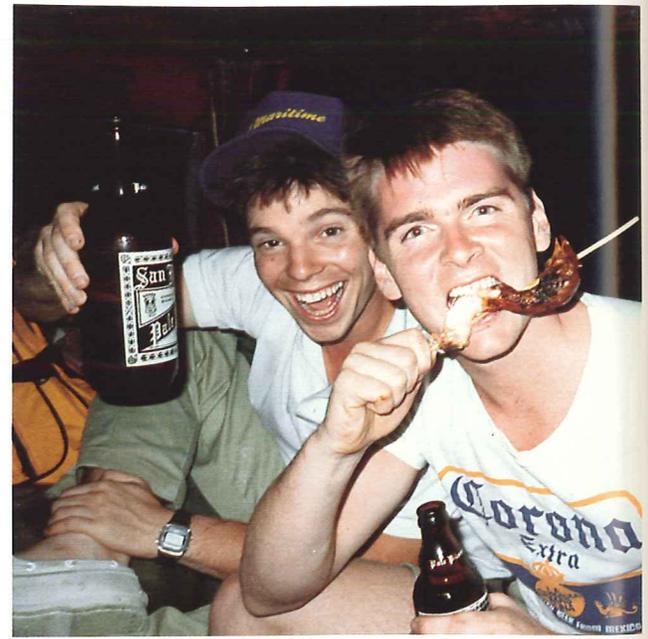

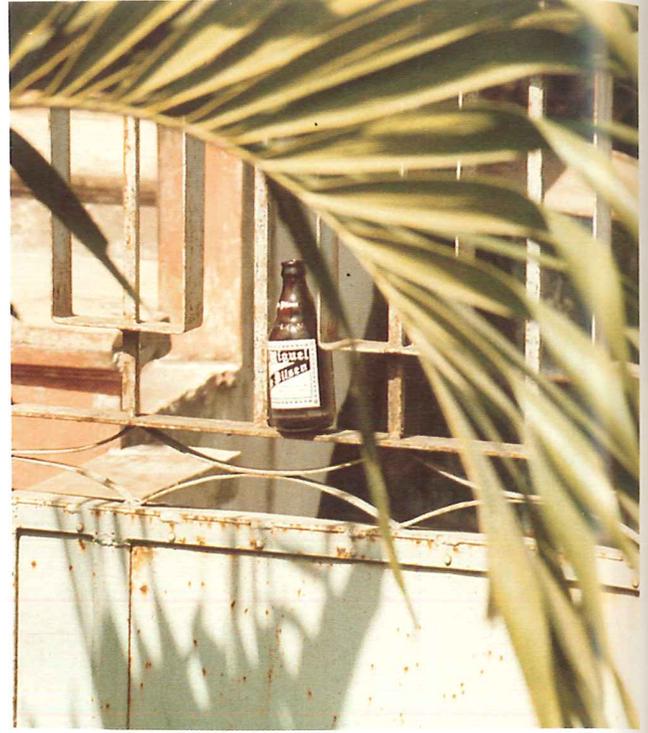

# Honolulu, Hawaii

Honolulu was a place to spend our money . . . and oh, how very quickly it seemed to go. Some of us spent some time visiting the Memorial to the U.S.S. Arizona, at Pearl Harbor. It gave us something to think about as we travelled to Japan . . .

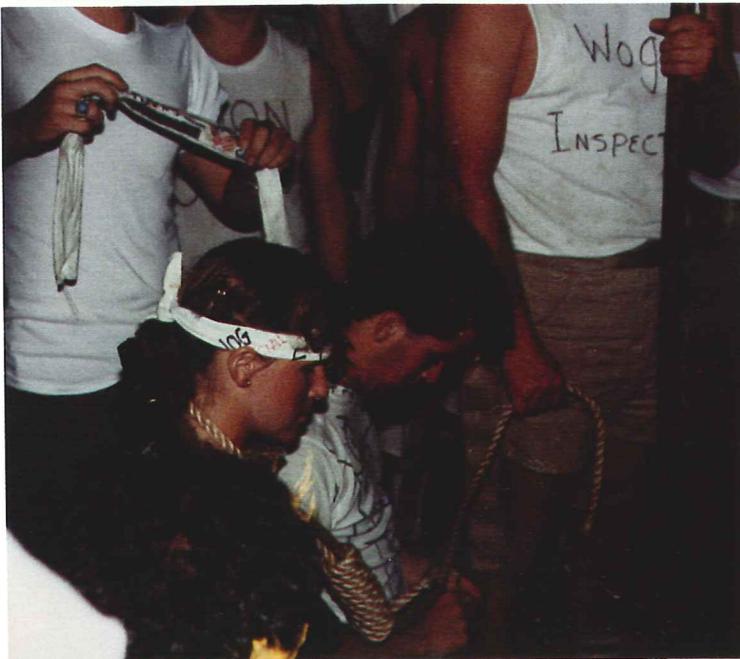

# Cebu City, Philippines

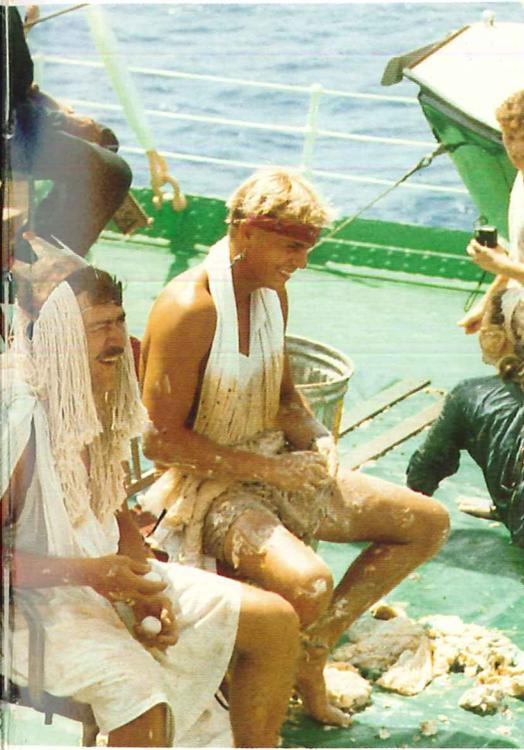

# Equatorial Miranda Rites

You degenerate subhuman mutant! You have been brought before King Neptune's Special Court of Equatorial Law for your crimes which will be described shortly.

You do not have the right to remain silent. You do not have the right to have an attorney present at your trial. You, in fact, have no rights. Remember that anything you say, don't say, and even anything that you think can and will DEFINITELY be held against you in the Special Court of His Royal Highness, Neptunous Rex, presided over by his loyal judge, Davy Jones. Do you understand these rights?

# King Neptune's

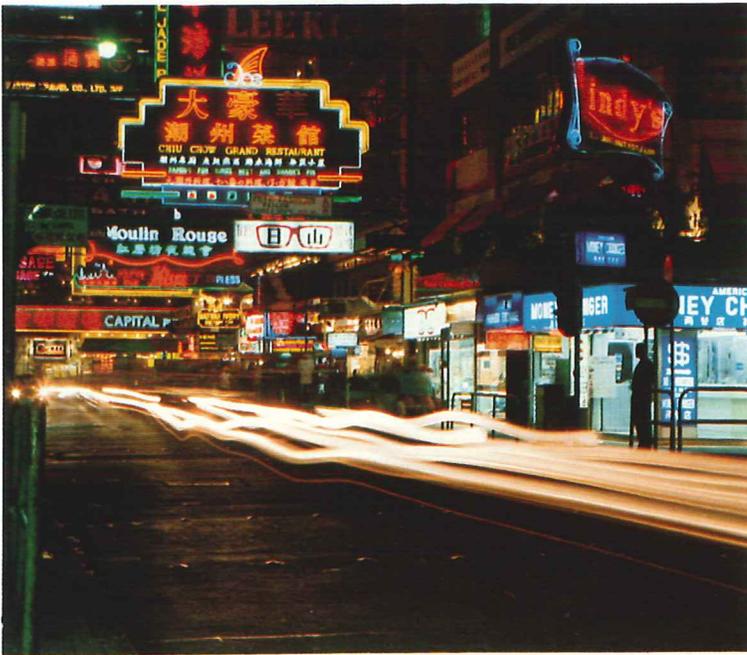

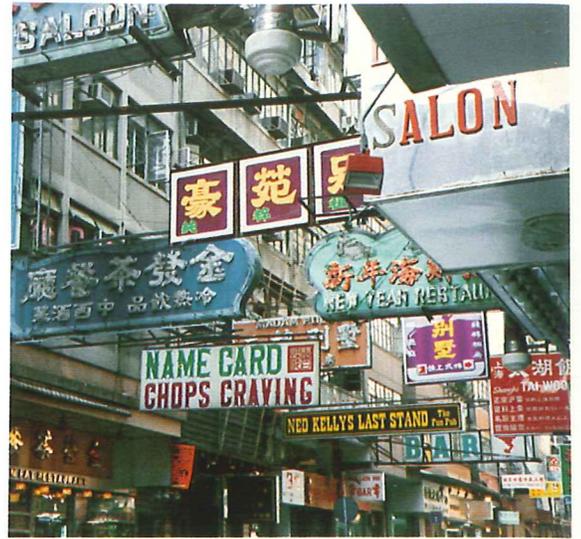

# Royal Domain

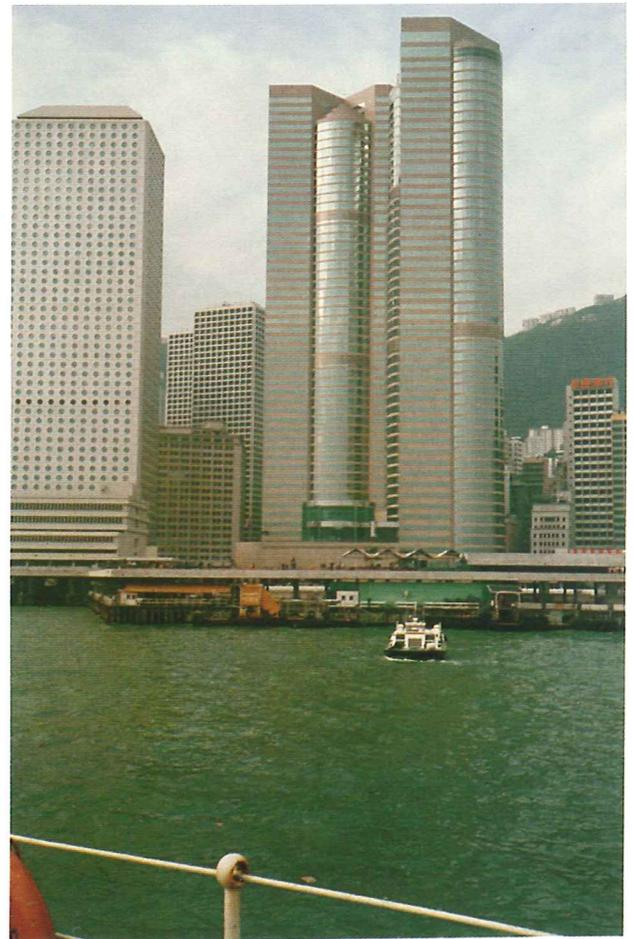

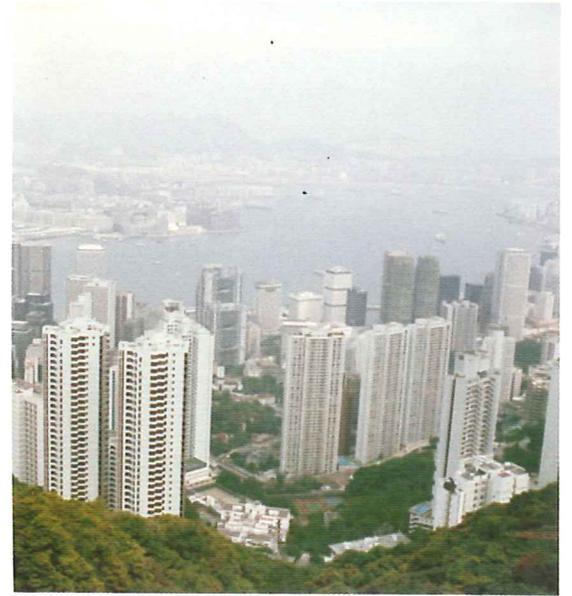

# Singapore

# Hong Kong

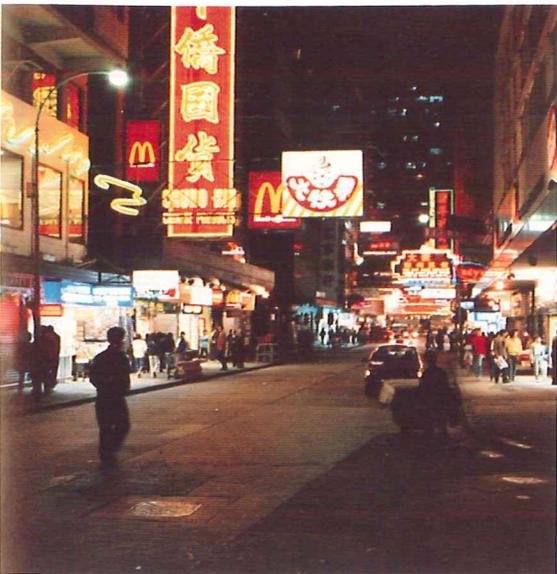

# Kobe, Japan

By the time we reached Kobe, we were nearly broke and certainly ready to go home. Our two day stay was just long enough for us to tire quickly of the expensive prices, and make us long for home even more.

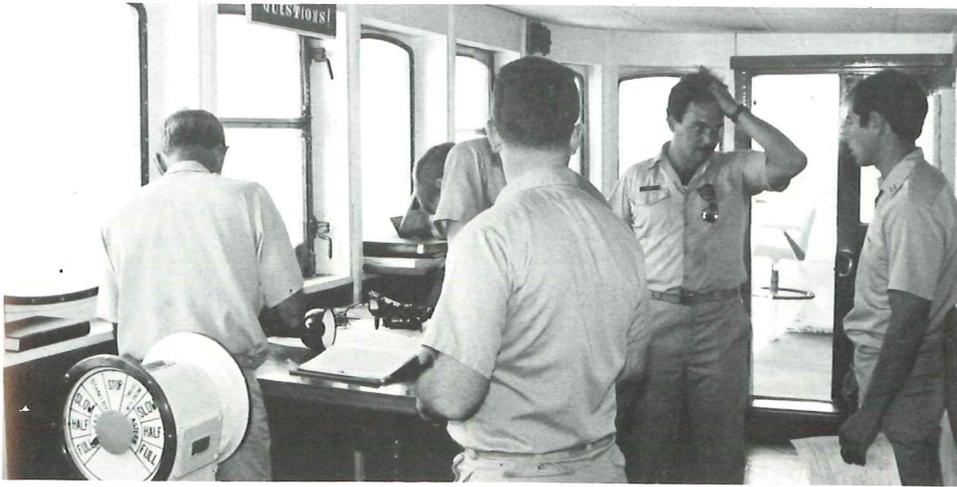

# Tokyo, Japan

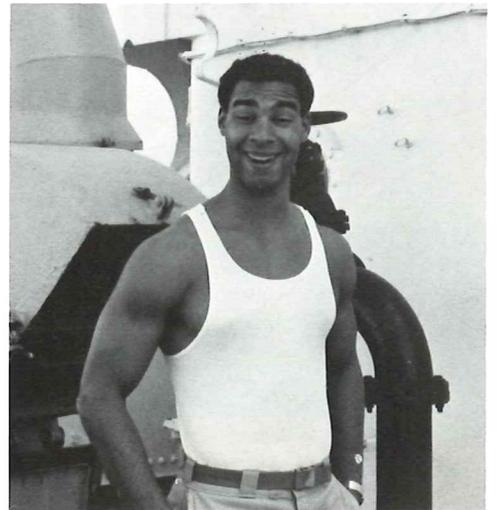

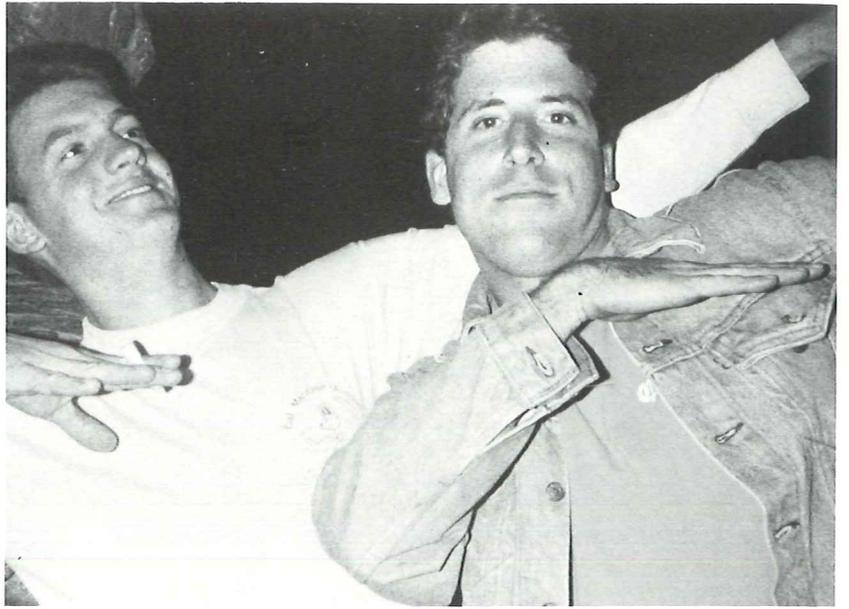

Ah, Tokyo . . . the last stop for Cruise 1987. We were broke in Kobe, but by the time Tokyo came around we owed money . . . We found that Tokyo was expensive, but if you got away from the city there were some good bargains to be found. But anyway you look at it, we all just wanted to get home . . .

## LIVING IN A BOX

We had a lot more to learn during Indoc Week than just our Fall schedules and who our new roommates would be. There were many regulations to learn (and many of us learned the hard way), not to mention the fact that we would spend our next four years on a "dry campus." Now, as our first year comes to an end, we have seen our class gradually dwindle to about half of its original numbers. It takes a special kind of person to be a middie and make it through. But for those of us who stuck with it, we are edging closer to our goals. Our first cruise is just around the corner and our ultimate goal, graduation, is not far off. Sure, we'll be "gars" for one more year, but we've finally made it to third class gar!

In April 1986, Chris Bower became the new Drill Team Commander. Events such as the Apple Blossom Beauty Pageant were soon to follow. In late May the Drill Team was invited to Las Vegas, Nevada to participate in a parade. When we returned, we brought the first place trophy with us. We rounded out the Spring Tri with two first place finishes in Fourth of July Parades. In the Fall of 1987 we attended another parade in Las Vegas, and had high finishes in Columbus and Veterans' Day Parades. Through all conditions, and through all the years, the Drill Team marches on . . .

# Carquinez Bridge Celebration

## OH, WHAT A BRIDGE!

In 1987 the Carquinez Bridge turns sixty years old. With all the hoopla about all of the other bridges in the Bay Area, Vallejo and Crockett, not to be outdone, decided to throw a party for the Granddaddy of them all. Instead of Huey Lewis we had a real rock concert. And instead of just lighting the bridge, Vallejo and Crockett lit the C&H Sugar sign on the C&H Sugar Plant, which hadn't been lit since the energy crisis back in the 70's.

On the day of the event, several thousand people walked across the bridge and came down onto the CMA campus for a real personal celebration for the bridge that first united Vallejo and Crockett. The best thing of all is that Vallejo and Crockett did it all without going over budget.

So, Happy Birthday to the Carquinez Bridge. And we'll see you for the 75th.

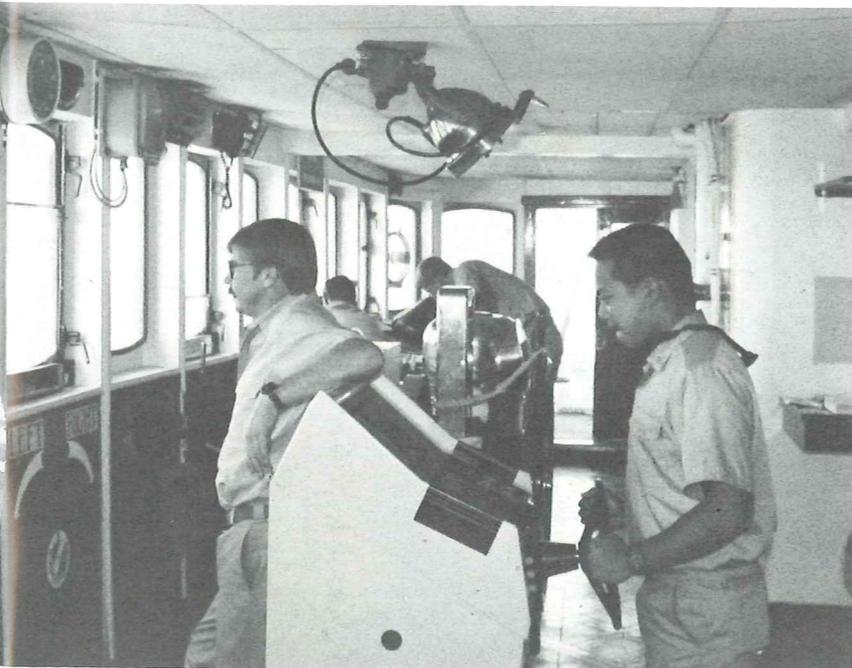

UPPER LEFT: Dave McCloy kicks back after a long day with a mug of California wine. LOWER LEFT: "Well, what do you think?" UPPER RIGHT: Smiling Dave Martin stands guard. MIDDLE RIGHT: "Yes, Kids! It's a NAV DAY!!!" LOWER RIGHT: "I'm telling you, Ed, we have to find a way of convincing the Captain that the middies swiped that case of wine."

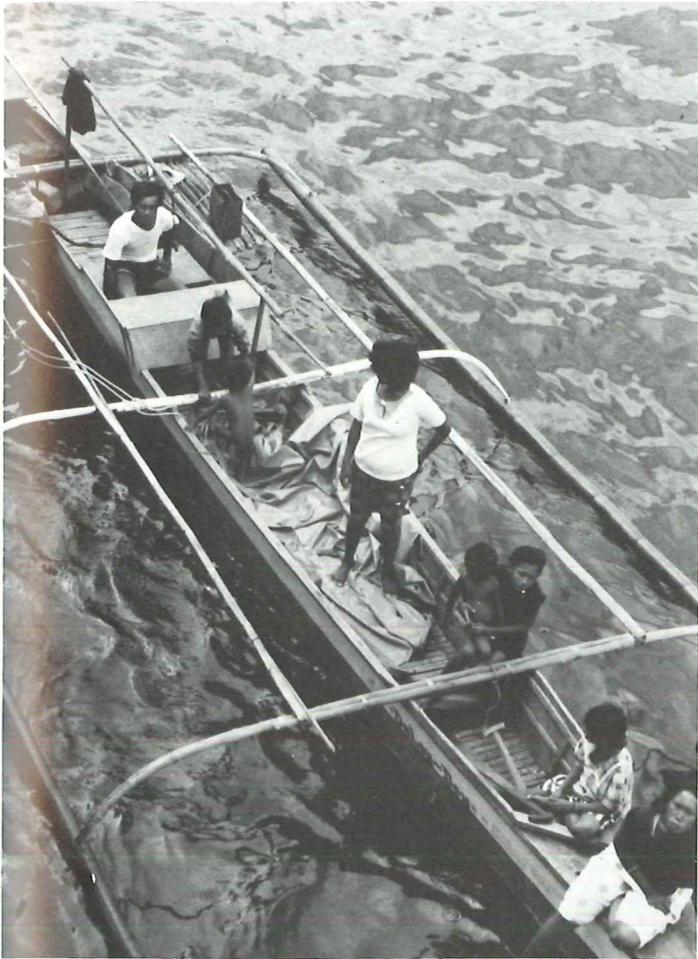

# Looking Back

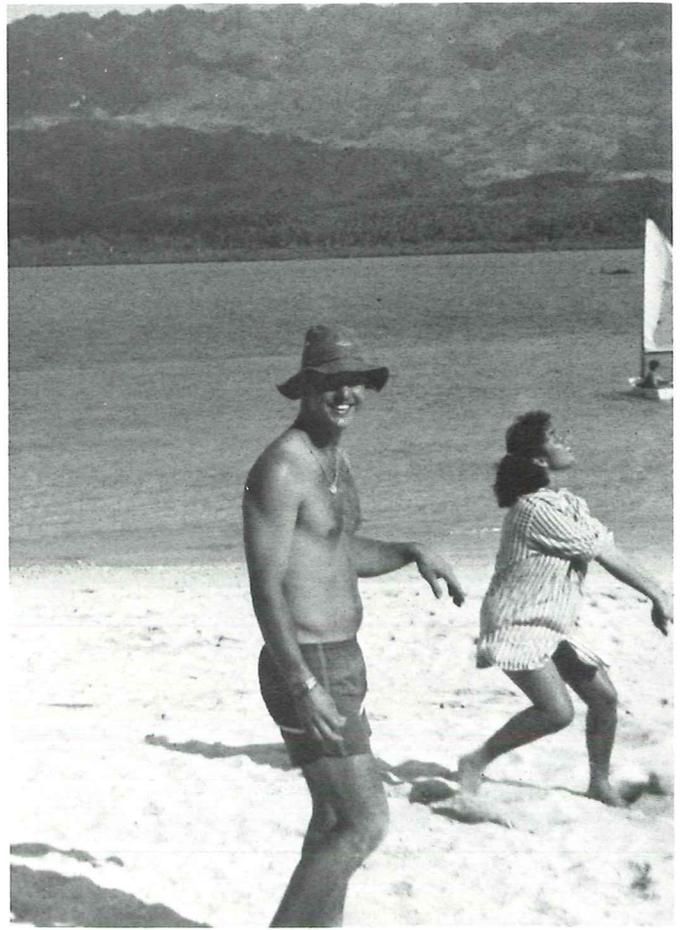

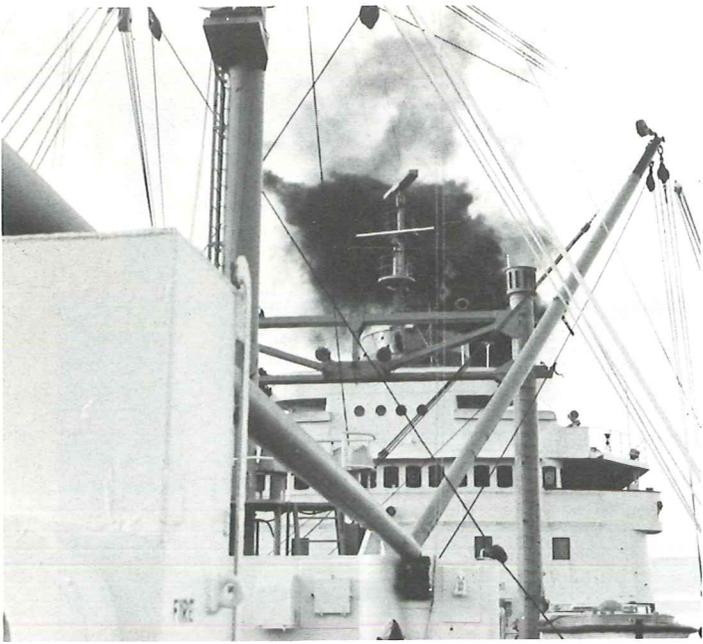

UPPER LEFT: Meet Curly, Larry, and Moe. CENTER LEFT: Secretary of State George Schultz makes a special visit to the Golden Bear. LOWER LEFT: In order to relieve boredom, Robert Nagamada takes a break at the video console. UPPER RIGHT: Garth Kirk proves that he can be a distinguished drunk. LOWER RIGHT: So this is Vallejo's sister city? But the women here are pretty.

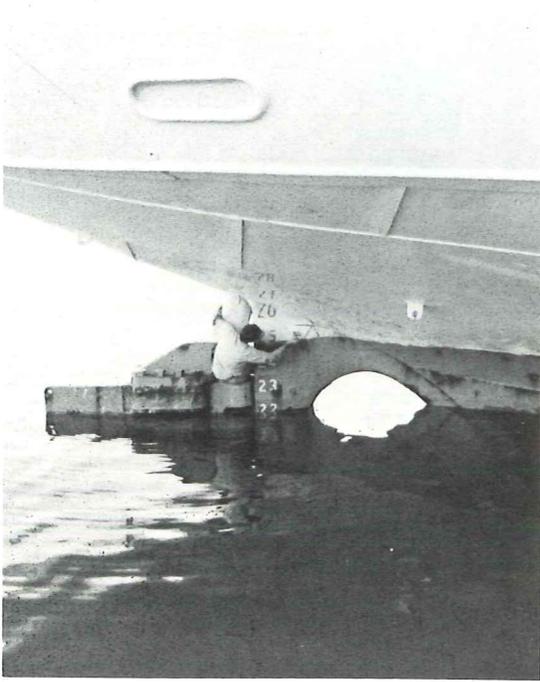

UPPER LEFT: "Jim Larrison must be on watch!" LEFT CENTER: Mike Carolan shows us how clean sweep down gets done day after day, after day . . . LOWER LEFT: "Today boys and girls, instead of Rules of the Road, we shall discuss the importance of Willie Bird." UPPER RIGHT: "Thank Heaven, for Little Girls!" LOWER RIGHT: "Of course we're smiling! We've been tasting the Californias . . . one bottle at a time!!!"

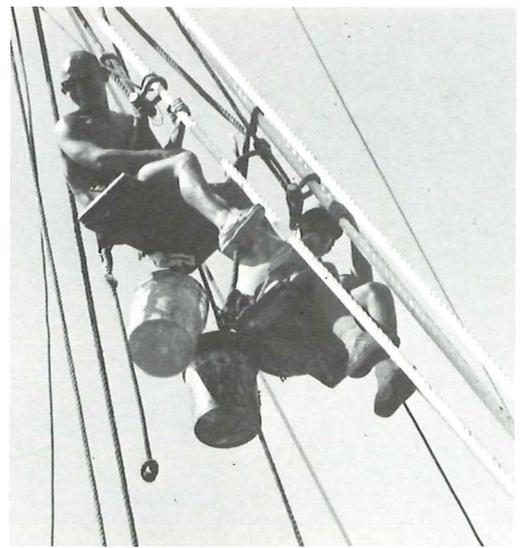

# Quotable Quotes

UPPER LEFT: Hey! Look at the deckie! How do they do that??? CENTER LEFT: Let no wine pass my lips that is younger than my BMW. And stop making fun of my moon boots!!! LOWER LEFT: What do you mean there's no pink paint? You just have to mix the white with the red. UPPER RIGHT: Sigh!?!? If I make Walter Div Com I'll have to listen to him talk for the next year. Well, I could just pretend to listen! LOWER RIGHT: Calling this ship the Training Ship Zinfindel is out! But I will consider hiring you to cater my next party.

# NOW TAKE A LOOK AT THE POST-GRADUATE CURRICULUM.

Congratulations and welcome to a new and exciting career.

You'll be more sophisticated seamen than your graduating counterparts just ten years ago. And the Chevron Oregon is one reason why.

The Oregon was the first gas turbine-powered tanker in the American Merchant Marine. Its turbine system drives an electric generator which produces the power to propel the vessel.

And the Oregon is just one of five such turbine tankers now in service for Chevron.

Engineering breakthroughs like the Chevron Oregon will be a constant challenge to you throughout your career in the Merchant Marine. We at Chevron are proud to be a part of it all.

Welcome aboard.
