

# Read a Good Book

## Reading List

Being well-read is one of the hallmarks of an educated person. It is easy for students to become caught up in the rush of studying, classes, and work. Sometimes this means students read very little other than assigned readings for a class.

After consulting a wide range of faculty in many disciplines, the Senate Library Subcommittee and the Madden Library have created a reading list of recommended books in various subject areas. Students are encouraged to visit [www.csufresno.edu/catoffice/current/rdglist.html](http://www.csufresno.edu/catoffice/current/rdglist.html) and to take time to read the titles that appeal to them.
