

## STUDENT HOUSING

### RESIDENCE HALLS

The university can accommodate 1,268 students in the residence halls on campus. Two types of rooms are available: single and double. Rooms are attractively furnished and provide pleasant study and living facilities. The halls also have special lounge areas, recreation rooms, study rooms, and laundry facilities. Food service is provided by the residence hall dining facility. A choice of board plans is available, allowing the resident to choose the one which meets his or her needs and budget. The hall governments sponsor an extremely active and varied program of activities. In addition to the conveniences of location and services offered by the residence halls, the group living situation affords a unique opportunity for students to make new friends and to become involved in university and hall activities.

Residents must agree to live in the halls for the entire academic year. For information on residence hall costs, see *Fees and Expenses*. Further information and applications for reservations may be obtained by writing to the Housing Office. Application forms are available after April 1. Students are encouraged to apply for on-campus accommodations BEFORE they receive notice of admission to the university.

### OFF-CAMPUS HOUSING

The Housing Office publishes an apartment brochure which lists most of the apartment complexes near the university. (The apartment brochure can be mailed upon request.) The Housing Office does not inspect, supervise, recommend, or approve any of the listings contained in this brochure, nor are rental rates controlled by the Housing Office or the university. We suggest that you inspect the premises before signing an agreement. In addition, a current listing of all other off-campus housing such as roommates wanted, houses, and rooms in private homes are available at the Housing Office.

We further suggest that you make arrangements for housing as early as possible.

### HOUSING FOR MARRIED STUDENTS

The university does not maintain housing facilities for married students and their families. The Housing Office does maintain a file of privately owned rentals, some of which are near the campus. These private rentals range from \$85 to \$300 per month depending on size, furnishings, and location.

## STUDENT HEALTH SERVICE

The objective of the Student Health Service is to keep the student in a state of optimum health, both physically and mentally, so that the student may realize to the fullest the opportunities afforded by the university. The health services are supported by a portion of the Student Services Fee paid by each student. These funds finance the provision of basic health care to students wishing to avail themselves of these services. In addition, each student may *voluntarily* pay an additional health fee which supports certain services and treatments not funded through the Student Services Fee. The Student Health Service publishes a brochure which describes in further detail the basic health care and those additional services available through payment of the voluntary
