

services are supported by a portion of the Student Services Fee paid by each student. These funds finance the provision of basic health care to students wishing to avail themselves of these services. In addition, each student may *voluntarily* pay an additional health fee which supports certain services and treatments not funded through the Student Services Fee. The Student Health Service publishes a brochure which describes in further detail the basic health care and those additional services available through payment of the voluntary health fee or on a fee-for-service basis. The brochure is available at the Student Health Service.

The Student Health Service is housed in its own building, with well-equipped doctors' offices and examination rooms, laboratory and X-ray facilities, pharmacy, physical therapy, nurses' treatment rooms, business office, and waiting rooms. It is open each school day during hours posted at the entrance to the building. At these times registered nurses are on duty and physicians are available for consultation. Various medical specialties are represented among the part-time and full-time physicians, affording a high standard of medical care.

In addition to the Student Health Services, students may purchase an insurance protection plan for emergency illness and accidental injury during hours that the Center is closed. This insurance program provides substantial coverage for hospital benefits, medical, surgical and related services for any one illness or accident. The program covers the student both on and off campus on a twenty-four-hour-a-day basis and includes periods of interim vacation and absences.

#### LANGUAGE, HEARING, AND SPEECH CLINIC

The Language, Hearing, and Speech Clinic is part of the program of communicative disorders within the Communicative Disorders Department. Any regular student needing diagnostic or therapeutic assistance with language, hearing, or speech problems may arrange to secure the service of the clinic without charge.

#### TESTING SERVICES

The Office of Testing Services is staffed by a Director and a Psychometrist, both having special educational backgrounds emphasizing tests and measurement, research, and computer applications. They work closely with other offices, Counseling Center staff, and faculty. Services include the following:

*Psychological Testing.* A variety of psychological tests designed to measure educational abilities, personality, and vocational/career interests are available. Usually such tests are administered at the request of a counselor or a member of the Office of Advising Services staff. In most cases, a student must see a counselor prior to the administration of psychological tests.

*Research Services.* Within the limits of staff time, the office assists students, faculty, or departments in designing and implementing research problems. The Office of Testing Services is often a link between the researcher and the campus Center for Information Processing.

*Entrance Examinations.* Several times during the academic year special institutional administrations of the Scholastic Aptitude Test (SAT) are
