### II. Single Subject Credential Program

Holders of single subject credentials are authorized to teach subjects commonly offered by secondary schools and specified on their credentials. The preliminary Single Subject Credential requires (1) certification of subject matter competency, established by examination or completion of an approved waiver program (see below for majors and advisers); (2) completion of an approved program of professional preparation, including one semester (or equivalent) of full-time student teaching under supervision; and (3) a bachelor's degree. Requirements for the fifth year program leading to a clear credential are outlined in Section III. Other requirements are detailed in the application for admission to the program.

Area coordinators (see below) advise credential candidates majoring in their respective departments, teach the methods courses in their subject fields, assign and supervise their student teachers, and act as official liaison between the subject matter departments and the Single Subject program of the Teacher Education Department.
