

**Nonresident**

If you are neither a resident for tuition purposes nor a graduate of a California high school you need a minimum eligibility index of 826 (ACT) or 3402 (SAT). If your high school GPA is above 3.60 are exempt from the test requirements.

**New Admission Requirements Effective Fall 1984**

If you plan to apply for admission during 1983–84 or later you should be aware that additional admission requirements become effective for applicants for fall 1984 and later. A first-time freshman will still need to meet the GPA test score requirements described above and in addition must have completed eight semesters of college preparatory English and four semesters of college preparatory mathematics. Your school will know what courses will count toward these requirements and when you should take them.

A few applicants may not have had the opportunity to take all of the required courses by 1984. The CSU will make some exceptions to these requirements during 1984–85 and 1985–86 for those who cannot schedule all of them in the time remaining in high school. If you are one of those few, your school will know about possible flexibility.

If you plan to enroll as a transfer from another college, you may also need to meet the new subject requirements, as well as the regular college unit and grade requirements. If you did not take the right courses in high school, you can take equivalent courses in college. Your counselor can advise whether the new policy will apply to you.

Don't assume that English and mathematics are the only important subjects in high school. In order to be well prepared you should plan to take a full college preparatory program including additional courses in mathematics, science, social science, foreign language, and the humanities/fine arts.

**Undergraduate Transfer Applicants (Resident and Nonresident)**

Transfer admission eligibility is based on transferable college units attempted, rather than on all college units attempted. California Community College transfers should consult their counselors for information on transferability of courses. If you are in good standing at the last institution attended you may be admitted as an undergraduate transfer if you meet either of the following provisions:

1. You were eligible as a freshman (see freshman requirements) and have a GPA of "C" (2.0 on a scale where A = 4.0) or better in all transferable college units attempted.
2. You have completed at least 56 transferable semester units or 84 transferable quarter units with a grade point average of "C" (2.0 on a scale where A = 4.0) or better if a California resident; nonresidents must have a grade point average of 2.4 or better.

**High School Students**

Students still enrolled in high school will be considered for enrollment in certain special programs if recommended by the principal and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given program and does not constitute the right to continued enrollment.
