April - 14th 1920

Mr. William Randolph Hearst
Riverside Drive - New York - N.Y.

Have mailed drawings House A but idea occurs of using one design for both bed rooms with different coloring. Metal trim possible but would not save time unless mill strike still on is indefinite. Am using very little wood but joints are vital to prof. app.

Recent enlargements required more cement & form lumber. This material roof tile etc is stalled on cars en route for boat leaving here Friday. Minott tried to help but could not. Have regretfully to admit to that it will be impossible to overcome this set back to schedule. This badly breaks up into building schedule. Do not think it possible to have houses finished in time with this set back as tile & other, roof, etc will not be there. Minott could not get action. Mills still shut down.
