2.67	16	770	2.33	23	1040			
			2.32	23	1050			

judged to have academic preparation and abilities equivalent to applicants eligible under this section.

If your grade point average is 3.00 or above (3.61 for nonresidents), you are not required to submit test scores. However, you are urged to take the SAT I or ACT because campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs.

You will qualify for regular admission when the university verifies that you have graduated from high school, have a qualifiable eligibility index, have completed the comprehensive pattern of college preparatory subjects, and, if applying to an impacted program, have met all supplementary criteria.

Honors Courses. Up to eight semesters of honors courses taken in the last two years of high school, including up to two approved courses taken in the tenth grade, can be accepted. Each unit of *A* in an honors course will receive a total of 5 points; *B*, 4 points; and *C*, 3 points.

Subject Requirements. The California State University requires that first-time freshman applicants complete, with grades of *C* or better, a comprehensive pattern of college preparatory study totaling 15 units. A "unit" is one year of study in high school.

- 2 years of social science, including one year of U.S. history or U.S. history and government
- 4 years of English

- 3 years of math (algebra, geometry, and intermediate algebra)
- 2 years of laboratory science (1 biological and 1 physical, both with labs)
- 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence)
- 1 year of visual and performing arts (art, dance, drama/theater, or music)
- 1 year of electives selected from English, advanced mathematics, social science, history, laboratory science, foreign language, and the visual and performing arts

Foreign Language Subject Requirement.

The foreign language subject requirement may be satisfied by applicants who demonstrate competence in a language other than English, equivalent to or higher than expected of students who complete two years of foreign language study. Consult with your school counselor or any CSU campus Admissions or Relations with Schools offices for further information.

Subject Requirement Substitution for Students with Disabilities.

Applicants with disabilities are encouraged to complete college preparatory course requirements if at all possible. If an applicant is judged unable to fulfill a specific course requirement because of his or her disability, alternate college preparatory courses may be substituted for specific subject requirements.

Substitutions may be authorized on an individual basis after review and recommendation by your academic adviser or guidance counselor in consultation with the coordinator of a CSU Services for Students with Disabilities office.

Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held responsible for 15 units of college preparatory study.

Students should be aware that failure to complete courses required for admission may limit later enrollment in certain majors, particularly those involving mathematics. For further information and substitution forms, contact the coordinator of disabled student services at your nearest CSU campus.

High School Students. Students still enrolled in high school will be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus
