Unknown

No. And a lot of animals that respect that they don't have enough.

00:26:52:12 - 00:27:17:09

Speaker 3

That they need fact enough. I got lucky. Get it? Earn enough that I just homesteaded for now you that if we're not tested they give us another logical sequence is to say you have two students.

And I think you're going to make sure this whole thing and I want to thank you for bringing into this program I'm a fine example of the program, but I our keynote speaker is one in which I'd like to do the next four.

00:28:24:11 - 00:29:00:11

Unknown

Before I could tell you a little bit about, first of all, no, we are not very and so many people often ask you would be a fine act. Yes. Supervisor Right. Of Representative District three who is related to the ACT or County Board of Supervisors in November of 1988, he was born in San Francisco and raised in San Diego Supervisor because attended Seattle Community College and received his bachelor's degree in urban settings from the University of California.

00:29:00:13 - 00:29:03:17

And he.

00:29:03:19 - 00:29:08:03

Speaker 3

Also graduated mathematician program at Harvard University's Kennedy School of.

00:29:08:03 - 00:29:38:28

Unknown

Government, as well as school supervisor for jobs, professional career. I have played service to the city school district, and the city had served two terms as mayor. And, you know, he's been involved in numerous civic organizations, including the boards of directors for United Way. And right now, I have

been fortunate to try to relocate the San Francisco Giants and I say that they got to carry out there is married twice a year.

00:29:39:03 - 00:30:00:21

And therefore, you know, I was I wish I could stand and say it's a great pleasure to being keynote speaker supervisor right now. Thank you very much for your time and thank you all for that very nice comment.

00:30:00:24 - 00:30:01:22

Speaker 2

You know, when.

00:30:01:24 - 00:30:30:06

Unknown

I was a young boy growing up, I used to spend a lot of time on baseball meals and I was trying to try to become a great basketball player and the father and out all the good ups. And I watched my older brother and I was never taught to play basketball. And I always had the vision for me on a on a basketball or a university.

00:30:30:08 - 00:30:56:01

Unknown

Well, here is my target. And I know that I did well three zero. And I do want to thank you for having me and your speaker this out now, because this is a very special occasion. It has been a while since I've been to a commencement ceremony back in 1973 when I graduated from the University of California, Santa Cruz.

00:30:56:04 - 00:31:24:05

Unknown

I remember those times and the disruptive times where college campuses were still pretty soon, and that carryover from the late 1960s, it made it difficult to actually go to school. So yeah, one of the reasons that I chose the University of California at Santa Cruz was because it was the only classes for California. We didn't have a helicopter landing at National Guard.

00:31:24:08 - 00:32:18:14

Unknown

These are now college campuses much quieter in those days, but students still have always had the potential for change. The recent past, all this planning approved today we are very proud of. All right. Now, those graduation ceremonies, graduates, you know, I was speaker of the House, me the whole story of the graduates at the very next generation of leaders and nice and all the same, these will be repeated on graduation day.

00:32:18:16 - 00:32:55:00

Unknown

Ray World were always a challenge for your generation, this greater than all previous generations combined. And perhaps no surprise, not a single graduate in this country will remember what the graduation speakers and honoring at the ceremony. No, not at all. Was today not where I am today. But I hope you see stubbornness as a viable option and as a trademark of an office.

00:32:55:02 - 00:33:39:18

Unknown

Quite honestly, I don't ever like to speak about, oh, oh, I was the one who said so. You are right. So it is outrageous upon and so this graduation present as the first college credit, I do remember that it was a very special time for my family and me. And you should consider today a special occasion for yourselves, for your families, and for that you can't really hear us now as graduations are our first and foremost celebration for the academic community.

00:33:39:20 - 00:33:48:12

Speaker 2

It is an opportunity to gather together, to sit down as your ambassadors for you to graduate. It is an opportunity.

00:33:48:12 - 00:33:58:14

Unknown

To celebrate one of life's management traditions. I don't think celebrations are time to discuss specific and weighty.

00:33:58:16 - 00:34:00:03

Speaker 2

It is much harder.

00:34:00:06 - 00:34:14:17

Unknown

To focus on themes which we all share. The hope that you you may find something to be used to take with you into the future. It is a cliché to say that every generation has unique challenges.

00:34:14:19 - 00:34:45:21

Speaker 2

It is, however true some generations inside or others marched for civil rights. I think the challenge for your generation will be considerably different. Your challenge will be to open doors for yourselves and for all those who have been kept out before. Your generation will have to succeed in many different professions to show that we can participate and we can contribute to this society.

00:34:45:23 - 00:34:50:17

Unknown

In a productive and meaningful way. The plague.

00:34:50:20 - 00:34:53:07

Speaker 2

Which was still against us.

00:34:53:09 - 00:35:31:14

Unknown

Is the beginning of your generation and beyond. To continue the progress this year, because it is how that it is now. We need all of us as law and we now know and like all of us, although the settings are beginning to be recognized, that time was to their efficiency, our contributions have been considerable in the past as well.

00:35:31:16 - 00:35:36:02

Unknown

And I think it's important to understand that we have been a strong force.

00:35:36:05 - 00:35:40:23

Speaker 2

In this time economically, socially and socially.

00:35:40:25 - 00:35:52:15

Unknown

One sector that was known as the value of our satellite in our economy was primarily agriculture. Our people were once small in the fields.

00:35:52:17 - 00:36:08:23

Speaker 2

When we took the crops from the fields and packaged them in the animals. It was hard to provide any of those factors. We hung around the halls, the highways and the urban infrastructure of this rapidly growing region.

00:36:08:26 - 00:36:23:21

Unknown

But our writing is much different than auctioneers and based on most of the vast open fields place, a new hall in our economy is no longer primarily dependent on the success of agriculture.

00:36:23:23 - 00:36:24:19

Speaker 2

It is now.

00:36:24:23 - 00:36:30:26

Unknown

The home of the greatest concentration of technological activity in the world today.

00:36:31:03 - 00:36:38:11

Speaker 2

Hispanics are not objects. They are service industries, they are small business, and they work.

00:36:38:13 - 00:36:45:24

Unknown

Hard for us to share the economic progress. This gap we need to understand.

00:36:45:26 - 00:36:46:27

Speaker 2

That the good jobs.

00:36:46:27 - 00:36:57:06

Unknown

Of the future of the economy are white collar and they will require college education. That's one reason why your members are so proud of you.

00:36:57:09 - 00:37:12:07

Speaker 2

And why you should be proud of yourself with your graduation today, you have taken a major step towards a successful future. The world you step into will be different than the world was four years ago.

00:37:12:14 - 00:37:18:02

Unknown

When you began your college career. Nowhere is this more true.

00:37:18:04 - 00:37:29:21

Speaker 2

Than here in the state of California, where change is not only rapid but dramatic and fundamental. For example, the base of California will be quite.

00:37:29:21 - 00:37:44:19

Unknown

Different in the year 2003. Our population will be older and it will be much more diverse. In that year, we will have for the first time what is called the minority majority. The Hispanic community.

00:37:44:25 - 00:37:45:20

Speaker 2

Will be well over.

00:37:45:20 - 00:38:25:11

Unknown

30% of the Asian community, well over 12%, and the black population over 7%. The challenge for these communities will be to live and work together toward common goals. Your challenge as our future leaders will be to make that a reality, especially for the Hispanic American. I believe that we have a Hispanic investment imperative for the future, not only by relying on governments generosity in the private sectors resourcefulness, but by cultivating a spirit of independence.

00:38:25:14 - 00:38:27:11

Unknown

We need to work with our.

00:38:27:13 - 00:38:32:28

Speaker 2

Local and state governments from both inside and outside to make sure.

00:38:32:28 - 00:38:54:28

Unknown

That the needs of our community are addressed. But we also need to have the attitude that we have. Are we as a to meet challenges successfully? We need to see independence in terms that are positive and progressive. One philosopher described it this way.

00:38:55:00 - 00:38:58:10

Speaker 2

He said the word independence is united.

00:38:58:13 - 00:39:03:23

Unknown

In the ideas of dignity and virtue. The word dependance.

00:39:03:25 - 00:39:04:23

Speaker 2

To the ideas.

00:39:04:24 - 00:39:34:28

Unknown

Of interiority and corruption. Today is an appropriate time. I reflect on what your family future may look like. Graduations are celebrations in the United family, more so than personal achievement. A few of you have come to this for all I know. But most of you are here because your family helped you get through difficult times and sacrifice themselves when you needed them in the past.

00:39:35:01 - 00:39:59:03

Unknown

I know that was the case with me. I was the first graduate in my family. My parents never had the educational opportunities that I had, yet they could think of no more or higher than their son getting a college graduation to us was not a celebration of personality, but a family pride.

00:39:59:05 - 00:39:59:23

Speaker 2

In 19.

00:39:59:23 - 00:40:12:26

Unknown

69. It seemed so long ago when I chose to begin my college career at the Kansas Community College. One of the reasons that I decided to go there was it was close to home and family.

00:40:12:29 - 00:40:13:19

Speaker 2

It is not a.

00:40:13:19 - 00:40:19:00

Unknown

Decision that I regret in the least, and every major decision I made today.

00:40:19:02 - 00:40:19:26

Speaker 2

Was based on.

00:40:19:27 - 00:40:55:10

Unknown

Family concerns. You may not have high priority for that opportunity. It will certainly be more difficult to balance the demands of work with the responsibilities of family. I ask that you be prepared, be aware of your priorities and your career, because in the fast paced, competitive world, it is often easy to lose track of many important things. Let me conclude by saying here at San Jose State College commencement, you are members of an extended family.

00:40:55:12 - 00:41:09:20

Unknown

Some of you may not see each other again, but you will still be related by your experiences here. Some of you will go on to academic institutions. Some will enter the workforce.

00:41:09:23 - 00:41:10:12

Speaker 2

But you should.

00:41:10:12 - 00:41:17:00

Unknown

Never forget that you are part of a culture that values community and family.

00:41:17:03 - 00:41:20:27

Speaker 2

And it is that sense of family that is important to the longevity.

00:41:20:27 - 00:41:25:04

Unknown

Of any culture or organization. I hope that.

00:41:25:09 - 00:41:30:24

Speaker 2

This is a man, high tech job and a high stress world. You will be able.

00:41:30:24 - 00:42:05:24

Unknown

To balance professional and personal life. If one suffers, the other one eventually will. I think you owe it to yourself and to the future generations. You may bring into this world understanding that no man or woman is in denial of entire myself as a theologian. That said, I thank you for having me as your guest speaker today and my sincere congratulations to the class of 1990.
