Dear Michele,

Thank you for coming all the way over to share your poetry with us. I really enjoyed it. When I heard you read your poetry out loud to us I thought that it was really good because you talk about how everything was for you when you were a teenager. I like your poetry because its different from any other poetry I've read. I especially like it because you explain how it is to be a mexican (chicana). My mom even went out to get a copy for her self. I also enjoyed the slides you showed us.

Thank you,
