

**Phase-in of the Subject Requirements.** CSU is phasing in the freshman subject requirements and during the phase-in period admits, on condition, applicants who meet all other admission requirements but are missing a limited number of the required subjects. Students admitted on condition must make up missing subjects after enrolling in the CSU.

The phase-in schedule is:

**Fall 1990–Summer 1991.** At least 12 of the required 15 units, including at least 3 of the units required in English and 2 of the units required in mathematics.

**Fall 1991–Summer 1992.** At least 13 of the required 15 units, including at least 3 of the units required in English and 2 of the units required in mathematics.

**Fall 1992 and later.** Full implementation of the 15-unit requirement expected.

**Waiver of Foreign Language Subject Requirement.**

The foreign language subject requirement may be waived for applicants who demonstrate competence in a language other than English equivalent to or higher than expected of students who complete two years of foreign language study. Consult with your school counselor or any CSU campus Admissions or Relations with Schools offices for further information.

**Subject Requirement Substitution for Students with Disabilities.**

Disabled student applicants are strongly encouraged to complete college preparatory course requirements if at all possible. If an applicant is judged unable to fulfill a specific course requirement because of his or her disability, alternative college preparatory courses may be substituted for specific subject requirements. Students who are deaf and hearing impaired, have learning disabilities, or are blind and visually impaired, may in certain circumstances qualify for substitutions for the foreign language, mathematics and laboratory science subject requirements. Substitutions may be authorized on an individual basis after review and recommendation by the applicant's academic adviser or guidance counselor in consultation with the director of a CSU disabled student services program. Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held for 15 units of college preparatory study. Students should be aware that course substitutions may limit later enrollment in certain majors, particularly those involving mathematics. For further information and substitution forms, please call the director of disabled student services at your nearest CSU campus.

**High School Students.** Students still enrolled in high school will be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Students should have at least a 3.0 GPA in college preparatory subjects or exhibit unusual academic abilities. Such admission is only for a given program and does not constitute the right to continued enrollment. Contact the CSU, Fresno Admissions Office.

**Provisional Admission.** California State University, Fresno may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school. CSU, Fresno monitors the senior year of study of those provisionally-admitted to ensure that they maintain a satisfactory grade point average, including the required college preparatory subjects, and graduate from high school.

**Transfer Requirements.** You qualify for admission as a transfer student if you have a grade point average of 2.0 (C) or better in all transferable units attempted, are in good standing at the last college or university attended, and meet any of the following standards:

1. You meet the freshman admission requirements in effect for the term to which you are applying (see *Freshman Requirements*).
2. You were eligible as a freshman at the time of high school graduation and have been in continuous attendance in an accredited college since high school graduation, or You were eligible as a freshman at the time of high school graduation except for the subject requirements, have made up the missing subjects and have been in continuous attendance in an accredited college since high school graduation.
3. You have completed at least 56 transferable semester (84 quarter) units and have made up any missing subject requirements (see *Making Up Missing College Preparatory Subjects*). Nonresidents must have a 2.4 grade point average or better. A maximum of 70 transferable semester (105 quarter) units is allowed from two-year institutions (community/junior colleges).

For this requirement, transferable courses are those designated for that purpose by the college or university offering the courses.

**Making Up Missing College Preparatory Subject Requirements.**

Undergraduate transfer applicants who did not complete the subject requirements while in secondary school may make up missing subjects in any of the following four ways:

1. Complete appropriate courses with a C or better in adult school or high school summer sessions.
2. Complete appropriate college courses with a C or better — one course of three semester (four quarter) units is considered equivalent to one year of high school study.
3. Earn acceptable scores on specified examinations.
4. Transfer applicants with 56 or more semester (84 quarter) units may complete, with a C or better in each course, one of the following alternatives:
  - a. **1987 or earlier high school graduates:** the CSU General Education requirement in communication in the English language (at least 9 semester units) and mathematics (usually 3 semester units).
  - b. **1988 and later high school graduates:** complete a minimum of 30 semester (45 quarter) units to be chosen from courses in English, arts and humanities, social science, science and mathematics of at least equivalent level to courses that meet General Education or transfer curriculum requirements.

All transfer applicants with 56 or more transferable semester units are expected to have completed the General Education requirements in communication in the English language (at least 9 semester units) and in mathematics (usually 3 semester units).

Please consult with any CSU Admissions Office for further information about alternative ways to satisfy the subject requirements.

**Honors Courses.** Grades, in up to eight semester courses designated as honors in approved subjects and taken in the last two years of high school, receive additional points in
