

# REGULATIONS AND PROCEDURES

## ADMISSIONS

Admissions standards at Fresno State College are stated in the *California Administrative Code*, Title 5, Education, Sections 924 ff, which provides uniform admissions regulations for all California State Colleges.

### FRESHMAN ADMISSION

The code provides as follows:

925. High School Graduates. For admission to a state college, a high school graduate, or other applicant who is judged by the appropriate college authorities to possess equivalent preparation, must, as a minimum, meet one of the following:

(a) Have completed the equivalent of 70 semester periods (7 Carnegie units) of course work, in subjects other than physical education and military science, with grades of A or B on a five-point scale during the last three years in high school.

(b) Have completed the equivalent of 50 semester periods (5 Carnegie units) of course work, in subjects other than physical education and military science, with grades of A or B on a five-point scale during the last three years in high school and attained the twentieth percentile on the national norm of a standard college aptitude test.

An applicant who fails to meet these standards may be admitted, if in the judgment of the appropriate college authorities, he gives promise of being able to succeed in college.

Admission to a state college shall be limited to the number of students for whom facilities and competent instructors are available to provide opportunity for an adequate college education. The Director of Education after consultation with the president of a state college shall determine the number of students for whom there are available facilities and competent instructors at the college.

Technical Agriculture Program. High school graduates who do not meet the above admission requirements may be admitted to the technical agriculture program in accordance with Code Section 927. See page 84 for additional information.

### TRANSFER ADMISSION

The code provides as follows:

928. Students Who Transfer From Accredited Degree Granting Colleges and Universities.

An applicant who has earned credit in accredited degree granting colleges and universities may be admitted to a state college if he meets standards as follows:

(a) He must have a grade-point average of 1.0 \* (grade of C on a five-point scale) or better on the total program attempted, or

(b) He may receive special consideration if he attains the twentieth percentile on the national norm of a standard college aptitude test provided that he must have been in good standing at the last college institution attended, and his previous record must be such that it would not disqualify him in the college to which he seeks admission.

(c) A student who does not meet the above requirements may be admitted on probation, if in the opinion of the proper college authorities he can succeed in college.

929. Students Who Transfer From Unaccredited Colleges and Universities. An applicant who has attended a nonaccredited college or university may be admitted to a state college if he meets the standards listed above for transfers from degree granting colleges and universities, but credit earned in nonaccredited colleges and universities may be counted toward graduation requirements only after he has earned 24 semester or 36 quarter units with at least a C average.

930. Students Who Transfer From Junior Colleges. An applicant who has earned credit in a junior college may be admitted to a state college if he meets the standards previously listed in this article, except that in case the applicant was ineligible for admission to a state college on the basis of his high school record he must, as a condition to admission to a state college, have completed 24 or more semester units of college work with a grade point average of 1.0 \* (grade of C on a five-point scale) or better in the total program attempted.

Not more than 64 semester units may be allowed for credit earned in a junior college. No upper division credit may be allowed for courses taken in a junior college. No credit may be allowed for professional courses in education taken in a junior college.

\* 2.0 on a four grade-point system, see page 60.
